INVESTIGATE LOBBYING IN LEGISLATURE

It Is Said That There Are More of This Class Than Ever Before

SOME OF THEM DO NOT APPEAR ON RECORDS.

SELLING OF CANAL LANDS

By the State, Without Reserving Mineral Rights, Would Be Made Legal By Purdum Bill—Bill Pending to Require Bible to Be Read in Public Schools—New Pharmacy Law.

(Associated Press Telegram)
Columbus, March 15.—A legislative investigation of lobby activities in the present assembly became a possibility today when a number of legislators discussed the question informally and considered preparing a resolution calling for such an investigation.

Representative Deaton of Miami, Republican, commenting on the proposed investigation said:

"There is a large bunch of trained lobbyists here this year than I ever saw before. Many are not registered and they are spending money lavishly on entertainment."

Several senators also have been considering investigating a formal inquiry into lobby conditions on the supposition that the lobby law requiring registration of lobbyists is being violated.

Members of the house today went to the secretary of state's office to scan the list of registered lobbyists. Representative Deaton suggested several names of lobbyists which did not appear on the department's records. A published list of lobbyists shows fifty-two registered; in addition to the throng of citizens representing the Dayton Citizens Relief committee.

Mr. Deaton also said he expected to prepare a bill to prohibit school book manufacturers from giving free books to members of boards of education and other school officials. He characterized the practice as "a species of graft which should be forbidden." He is author of a bill to provide county uniformity of textbooks.

Representative Purdum of Ross, was preparing to introduce a bill today, giving the state superintendent of public works authority to sell canal lands without retaining the mineral rights. He declared a railroad wants to buy a strip of canal land between Chillicothe and Portsmouth, but refuses to make the purchase so long as the state cannot legally give a free title.

To advocate a bill promoting the reading of the Bible in public schools, Prof. Edward Mack of Cincinnati and Dr. Wilbur F. Crafts of Washington, D. C., will address the senate committee on public schools according to notice received today by Lieutenant Governor Arnold from the Cincinnati Federation of Churches.

Representative Clark of Warren county expected to introduce a bill to (Continued on Page 2, Col. 3.)

DEMANDS OF U. S. BACKED BY WARSHIP

Mexican Port, Blockaded By Carranza, Will Be Kept Open For the U. S.

THROUGH PROGRESO COMES SUPPLY OF TWINE

WILSON TALKS PLAINLY

In Reply to Carranza's Note and Assures the Mexican That, Though Friendly, This Government Will Insist Upon Better Treatment of Foreigners in That Country.

(Associated Press Telegram)
Washington, March 15.—General Carranza has abandoned his blockade of the port of Progreso on urgent representations by the United States.

The Mexican gunboat Zargosa has been called off and two American ships laden with sisal for the United States were cleared Saturday without interference.

(Associated Press Telegram)
Washington, March 15.—The United States has served notice on General Carranza that the port of Progreso, through which practically all the sisal used in making harvesting twine for this country is obtained, must be kept open, and is prepared to back up its demand with the cruiser Des Moines, now at that port.

On the other hand, officials were encouraged over reports of an improvement of conditions in Mexico City.

General Carranza has taken steps to enforce his blockade order against which the American government has made vigorous representations to him, and the cruiser Des Moines is at Progreso with instructions to see that there is no interference with American trade.

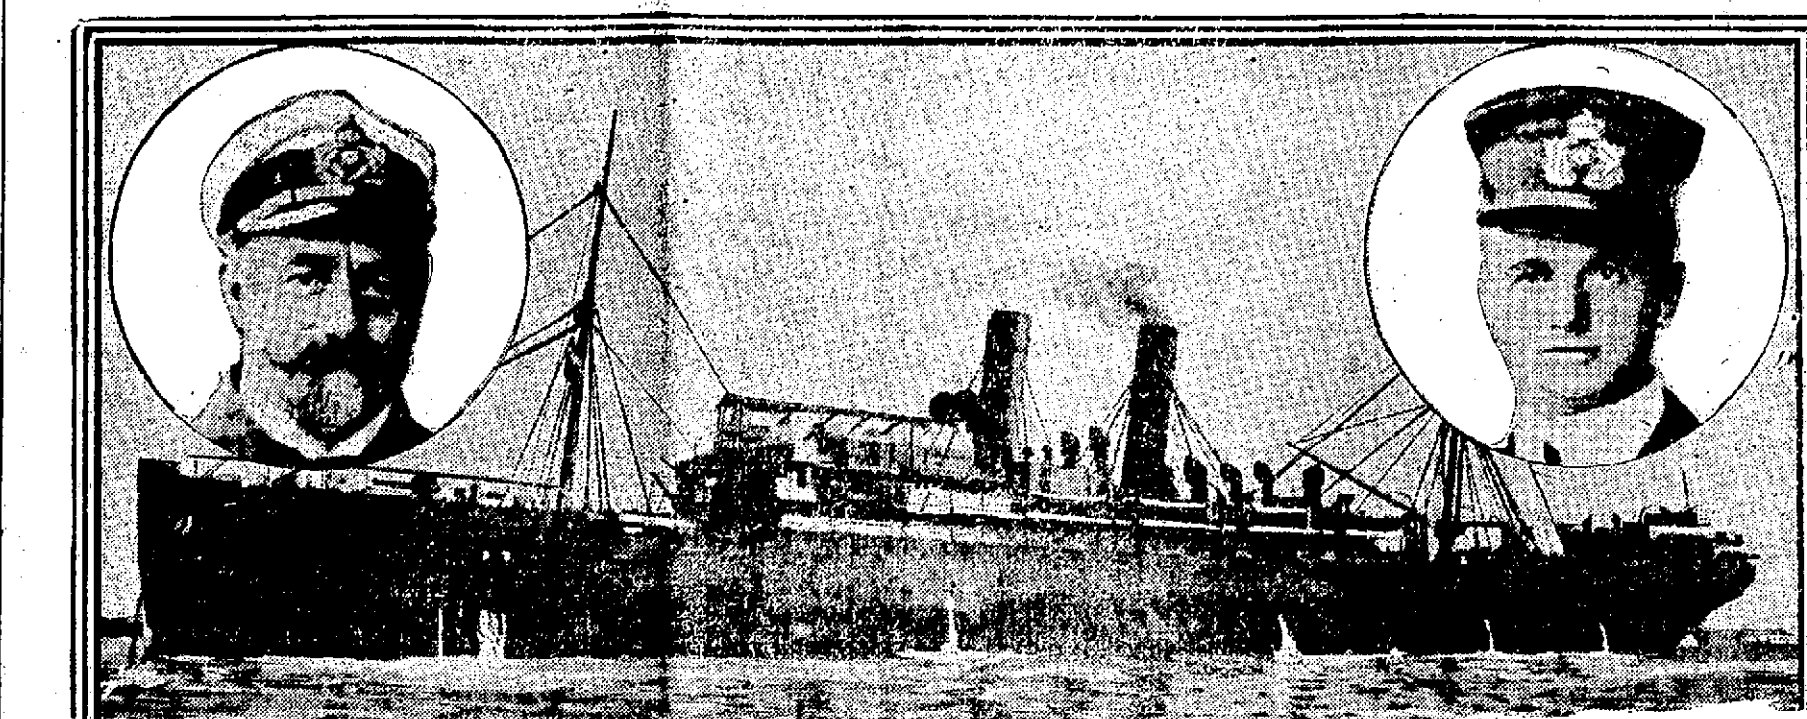

Some fear is felt here concerning the safety of foreigners at Manzanillo, because of the failure of General Carranza's forces to maintain order there and the diminishing food supply. American warships now in the vicinity of Manzanillo probably will bring foreigners there away, should conditions not improve.

President Wilson's reply to General Carranza's note of March 8, which was in response to the urgent representations of the United States for better treatment of foreigners in Mexico, was as follows:

"I thank you for your message of the 8th of March for the reassurance it conveys, and for your kind personal words. I beg that you will understand that if our messages occasionally are couched in terms of strong emphasis, it is only because they contain some matters which touch the very safety of Mexico itself, and the whole possible course of its future history.

"We seek always to act as friends of the Mexican people, and as their friends, it is our duty to speak very plainly (Continued on Page 2, Col. 2.)

German Raider Prinz Eitel In Newport News, and Two Officers

This is the Prinz Eitel Friedrich, the German auxiliary cruiser, which before the war was a liner of the North German Lloyd Line, in the harbor off Newport News. The Prinz Eitel arrived in Newport News with the information that she had sunk the William P. Frye an American merchant ship belonging to Arthur Sewell & Co. of Bath, Me., which was loaded with wheat from Seattle for Liverpool. She had also sunk seven other British and French vessels.

Diplomatic authorities in Washington consider the sinking of the Frye an act of wanton aggression, so plainly unwarranted that the German government will disavow it quickly. The Prinz Eitel in Newport News looks battered and worn after seven months on the high seas with no chance to clean up. One side was painted white, while the other was rusty. Her smokestacks and all iron work about her were rusted.

The two officers shown are Captain Muntz (on the left), who was commander of the vessel when she was a merchant ship with the North German Lloyd, and Captain Bauer (on the right). Captain Muntz took second place when Captain Thierichsen, a naval officer of Germany, was given charge of her.

EVERY PERSON GOING TO FRANCE MUST HAVE A SPECIAL PASSPORT.

(Associated Press Telegram)
London, March 15.—Beginning today, every person going into France must be provided with a special passport issued by a French consul. Furthermore, they must carry an additional document declaring upon what evidence the passport was issued and for what purpose it was obtained. This document like the passport, must show the photograph of the bearer.

It takes three days to obtain this additional document, but it may be used more than once if issued by French consul.

BLAIR TRUCK PLANT STARTS NEAR FUTURE

REPRESENTATIVES OF DOLLINGS COMPANY IN NEWARK, MONDAY.

Big 48 Passenger Bus Climbed Steep Hill Near Newark on High Saturday Afternoon.

The Blair Motor Truck Company is getting under way though the actual manufacture of vehicles has not as yet commenced.

Final preparations were completed this morning at a conference between the Blair Motor Truck Co. and representatives of the R. L. Dollings Co., its fiscal agent, whereby the work upon completion of the drawing for jigs, dies and forms for the manufacture of both gasoline and gas-electric vehicles started today.

Mr. H. J. Raymond, sales-manager for the Dollings Co., who was in town yesterday, said that the Company's securities are moving in a satisfactory way and that the Blair factory will be fully financed as promised by Colonel Dollings at the recent booster meeting in Newark. Up to date the Dollings Co. has been offering the stock locally. This morning the company placed the proposition in the hands of the entire sales force over the state to be cleaned up quickly.

The management of the company stated that everything is being done in anticipation of the actual construction work and that as soon as the wheels are started the plant will build trucks in quantities rather than singly so as to get the lowest production cost.

The Blair gas-electric bus was given a severe test on one of the steepest hills about Newark Saturday afternoon. The big machine climbed the hill on high speed and further demonstrated its efficiency.

Man Tells of Killing Another 37 Years Ago; Was Never Prosecuted

Philip Nethers, aged 76, was arrested Sunday morning by Sheriff Charles H. Swank at his home about three miles east of Hanover, charged with the illegal sale of intoxicants, the affidavit having been subscribed in the justice court of Squire Fletcher S. Scott, where the preliminary hearing will be held some time today.

When arrested the officers secured several packages of the liquor as well as a large supply of extracts and other drugs which went into its manufacture. A bottle when analyzed proved that it contained about forty per cent alcohol, extracts, drugs and distilled water. The concoction resembles watered whiskey, about half and half, and Nethers is said to have peddled it in his neighborhood wherever he could find a buyer.

Nethers is the man who thirty-seven years ago shot and instantly killed Abraham Huff, a neighbor, aged thirty years. After the shooting he hid out in the hills for five months and then left for California where he remained until a little over three years ago when he returned to the neighborhood of his early home. He made no effort after returning at concealment and talked freely of his troubles with Huff, the man whom he shot. The crime was committed in Muskingum county and officials there and also at Newark knew that Nethers was back as he visited both Zanesville and Newark frequently but he was never arrested and charged with the crime as the officials stated that there was no witness and it occurred nearly half a century ago and Nethers could undoubtedly claim self-defense and secure his acquittal.

Three years ago, or possibly three and a half, when Nethers returned from California, he was recognized on the street by Sheriff Swank, who was then serving as Captain of Police. Captain Swank immediately got busy on the case and sent officers George Abbott and C. O. Burke to Zanesville to look up the records in the case. These officers did not care to prosecute and as a consequence Capt. Swank dropped his investigations.

In the meantime Nethers came and went as freely as he chose and would talk with anyone who would listen about his trouble which resulted in (Continued on Page 2, Col. 1.)

UNION PAINTERS IN CINCINNATI, O. WENT ON STRIKE

(Associated Press Telegram)
Cincinnati, March 15.—Union painters in Cincinnati and vicinity laid down their brushes and buckets today. Failing to reach an agreement with the master painters after several days of conference, the leaders of the journeymen went out along the line that all negotiations had failed and that work ceased Saturday.

There are 1200 members of the local union. A few of them will return to work immediately where the contractors have signed the new agreement.

The strike is based principally upon the refusal of the master painters to agree that all glazing work on jobs handled by them be done by union men. The journeymen painters declare that they will not work on any job on which non-union glaziers have been employed and the employers say that inasmuch as they do not employ the glaziers, they should not be held responsible. The new proposed agreement also calls for an advance of 5 cents an hour in wages after January 1, 1915, but it is understood that the employers are willing to agree to this increase. The present scale is 54 cents an hour for eight hours work.

SUNDAY'S MONEY IN PHILADELPHIA MADE TRUCKLOAD

(Associated Press Telegram)
Philadelphia, March 15.—It took Evangelist Billy Sunday's pay from his tabernacle in Philadelphia to the safety vaults of the Land Title and Trust company.

Yesterday was the "free will" offering day and the big tin dishpans which were used to collect the money were well filled with coins, crisp bills and checks. Three times during the day the ushers rushed down the aisles with their dishpans and three times they returned with them filled, to the overflowing. The money was kept in the tabernacle until the evening services. Then it was put in sacks and loaded onto a huge motor truck by five armed guards.

Reports given out early today do not give the amount of the "free will" offering, as it has probably not been computed.

Estimates on the amount which Rev. Sunday received, range from \$75,000 to \$100,000. Before the "free will" offerings was taken, Sunday already had gifts from admirers, which were valued at more than \$50,000, it was said.

SHOT HIMSELF IN BREAST BUT MAN WILL LIVE

John McElwaine, 25 years old, attempted suicide, it is said, shortly after noon Monday, when he fired a bullet into his left breast at 23 North Cedar street. The bullet entered the chest just above the heart.

The Bazler white ambulance made a hurry trip with the young man to the City hospital where Drs. Nye and Downs attended him. It was thought that the wound would not result fatally. No cause was assigned for the act. McElwaine is unmarried.

British Will Retaliate On Germany for Their Extension of War Zone

(Associated Press Telegram)
London, March 15.—The British order in council decreeing retaliatory measures on the part of the government to meet the declaration of the Germans that the waters surrounding the United Kingdom are a military area, was made public today.

The text of the order in council follows:

"Whereas, the German government has issued certain orders which, in violation of the usages of war, purport to declare that the waters surrounding the United Kingdom are a military area in which all British and allied merchant vessels will be destroyed irrespective of the safety and the lives of the passengers and the crews, and in which neutral shipping will be exposed to similar danger in view of the uncertainties of naval warfare.

"And, whereas, in the memorandum accompanying the said orders, neutrals are warned against entrusting crews, passengers, or goods to British or allied ships.

"Whereas, such attempts on the part of the enemy to give to his majesty unquestionable right of retaliation.

"And, whereas, his majesty has heretofore decided to adopt further measures in order to prevent commodities of any kind from reaching or leaving Germany, although such measures will be enforced without risk to neutral ships or to neutral or noncombatant life and in strict observance of the dictates of humanity.

"And, whereas, the allies of his majesty are associated with him in the steps now to be announced for restricting further the commerce of Germany, his majesty is therefore, pleased by, and with the advice of his privy council to order and it is hereby ordered, as follows:

"First—No merchant vessel which sailed from her port of departure after March 1, 1915, shall be allowed to proceed on her voyage to any German port. Unless this vessel receives a pass enabling her to proceed to some neutral or allied port to be named in the pass, the goods on board any such vessel must be discharged in a British port and placed in custody of the marshal of the prize court. Goods so discharged, if not contraband of war, shall, if not requisitioned for the use of his majesty, be restored by order of the court and upon such terms as the court may in the circumstances deem to be just to the person entitled thereto.

"Second—No merchant vessel which sailed from any German port after March 1, 1915, shall be allowed to proceed on her voyage with any goods on board laden at such port (Continued on Page 12, Col. 1.)

ADVANCE OF HINDENBERG IS MYSTERY

Opinion That Vast Forces In Poland Cannot Be Kept Apart

UNLESS GERMAN OFFENSIVE UNDERGOES RADICAL CHANGE

MEAGRE NEWS FROM EAST

Russians Apparently Abandoning Their Defensive Attitude In the Carpathians, and Are Making Desperate Counter Attacks On Austrians With Success, According to Reports

(Associated Press Telegram)
London, March 15.—Mystery envelops the progress of Field Marshal von Hindenberg's latest advance into Poland, but it is the opinion of British observers that the vast forces along the line from the Niemen to the Vistula cannot much longer be kept from decisive contact unless the direction of the German offensive undergoes a radical change.

At the present time the meager information coming through of the operations in the eastern arena indicates that the Germans have been successful in the forest of Augustow, whence the Russians have fallen back under the guns of Grodno. Further to the south, in the Mlawa region, the German advance has been stayed, and the Russians are initiating an advance on the northern bank of the Vistula in the direction of Plock. So far as the Germans are concerned, however, all of these movements may be abandoned and central Poland again become the scene of a determined attack on Warsaw. It is recalled that Field Marshal von Hindenberg never has been found of moving far from his line of rail communication.

In the Carpathians, the Russians apparently are abandoning their defensive attitude, for they are making desperate counter attacks on the Austrians with the greatest success, according to official announcements from Petrograd. The region of the principal Russian offensive is near Lupkow Pass. Here the Russians claim heavy captures in prisoners and guns. On the other hand, Vienna reports the failure of Russian counter attacks and the taking of many Russian prisoners as a result of bitter night fighting in the Carpathians.

Last night's Paris official announcement said the British success at Neuve Chapelle was more substantially than had been reported; that the French were making themselves secure in new trenches in the Champagne country, and that the aerial bombardment of West End had been effective.

Situation With Italy And Austria Seems To Be Hopeless at Present

(Associated Press Telegram)
Rome, Sunday, March 14, via Paris. March 15.—The report current in Rome today that Francis Joseph, emperor of Austria, has absolutely rejected the idea of any territorial concessions to Italy, has been given authoritative denial. The situation in this regard seems to be that the little Austria is reluctantly disposed to concede, is so inadequate compared to what Italy would accept that an understanding seems hopeless.

Premier Salandra spoke briefly in the chamber of deputies today on this subject. His remarks are interpreted as meaning that the efforts to induce Austria to make concessions to Italy are proceeding under the guidance of Prince von Buelow, the German ambassador to Italy.

Alexander, crown prince of Serbia, has arrived in Rome where he will be a guest of King Victor Emmanuel. He is endeavoring to recover from the effects of his wound. It is the opinion of his doctors that the crown prince will not be able to resume his military duties for several months.

The chamber today approved by 334 votes against 34 a bill for the economic and military defense of the state. This measure enforces heavy penalties against espionage.

This afternoon a gathering of Republicans attempted to hold a meeting in honor of the patriot and revolutionist, Mazzini. Grenadiers with fixed bayonets caused them to disperse, whereupon the crowd cried: "Down with Austria." The demonstrators then made their way to the Garibaldi statue, where a number of fiery speeches criticizing Germany and expressing sympathy with Belgium were delivered.

SHIP IS HELD UP; SUSPECT CHOLERA

(Associated Press Telegram)
New York, March 15.—The Greek steamer Ioannia, which arrived here from Piraeus, Greece with 269 passengers aboard, was held up at quarantine by the health officers until there could be definitely determined the nature of the illness of Iman Giabo, a steerage passenger, who showed symptoms of Asiatic cholera.

OIL PRICE REDUCED.

Pittsburg, March 15.—Five cents a barrel was cut from the price of the principal grades of crude oil, when the market opened today, the following schedule being announced by the South Pennsylvania Oil company: Pennsylvania crude \$1.45; Mercer black \$1.05; New Castle \$1.02; Cabell \$1.05; Corning 90 cents; Somerset 85 cents; Ragland 65 cents.

Lord Kitchener Praises Valor Of The English and French Troops as Well As Morale of Armies Under Difficulties

(Associated Press Telegram)
London, March 15.—Secretary of War Earl Kitchener gave a brief review of the war situation in the house of lords this evening.

He said that only trench fighting had been possible for many weeks past, but that this had not affected the morale of the British troops. Repeated occurrences in the fight around Neuve Chapelle and Epinette showed how successfully the British troops have been able to take the offensive.

The minister of war referred to the gallantry shown by the soldiers of India and he spoke enthusiastically of the French army which, he said, had made important progress at various points along the line, especially in Champagne, where the soldiers of the republic had given evidence of marked tenacity.

The situation in the Dardanelles was well in hand, the speaker declared, but he was unable to say more than as appeared in the press. Progress in the work of equipping Britain's new armies had been seriously hampered by failure to get sufficient labor and the necessary factory facilities. He said:

"The supply of war material is now and for the next month or two will be a very serious consideration. It is causing me serious anxiety. It is absolutely essential that the output of ammunition be increased. To do so is of the utmost importance to the operations in their field.

Continuing along this subject Earl (Continued on Page 2, Col. 5.)

PLEDGE

GIVEN BY FORMER PREMIER OF GREECE TO FURNISH 9,000 TROOPS TO ALLIES

For the Dardanelles Expedition—Bulgaria Has Assumed an Expectant Attitude.

(ASSOCIATED PRESS TELEGRAM)
Paris, March 15.—A pledge to the allies that Greece would place at their disposal 9000 men for the Dardanelles expedition, had been made to the chancelleries of the triple entente by former Premier Venizelos, on March 4, says the Petit Parisien. The London and Paris cabinets expressed the desire that Petrograd be invited to endorse M. Venizelos' action.

"From the fourth to the sixth," the Petit Parisien adds, "Bulgaria was strongly preoccupied by the attitude of Greece. The formation of a Bulgarian national defense ministry was considered, prior to taking the field against Turkey and embracing the opportunity provided by the action of Enver Pasha, in sending to the Gallipoli peninsula the troops garrisoned at Adrianople."

"London and Paris learned on March 7 that M. Venizelos had resigned as premier. At the same time formal announcement was received from Foreign Minister Sazonov of Russia's adhesion to the agreement projected between the allies and Greece."

"Since that time Bulgaria has assumed an expectant attitude, but knows that the triple entente will raise no objection to her taking the offensive and advancing to a line between Midia (on the Black Sea coast of Turkey), and Enos (on the Gulf of Saros). It is evident her intentions have not left Turkey unmoved for the ports she sent towards Tchatalja and Adrianople part of the force of 140,000 men which constitutes all the troops she has in Europe."

MAN TELLS

(Continued from Page 1.)
the killing of Abraham Huff. He always claimed that he was justified and did it in self-defense, that he left the country on account of the fact that there were no witnesses to the crime and that on account of the feeling which prevailed at the time he was afraid he might be convicted and sent to the penitentiary for a long term of servitude.

Some weeks ago Sheriff Swank was convicted that some one was "boot-legging" in the vicinity of Hanover and between there and the Flint Ridge district. After investigating the case he found that the whisky was being manufactured in that vicinity and naturally came to the conclusion that it was being distilled. He finally traced the matter to Nether's home and then awaited his opportunity as he wanted to catch him in the act of operation. The Sheriff finally secured a sample of the liquor and at once realized that it was a mixture instead of a distilled liquor. He then arrested Nether's and caught him with the goods in his possession.

Sheriff Swank has notified the federal authorities and the old gentleman will probably be turned over to them for prosecution. A sister of Huff, the man shot by Nether's, still lives and resides in the vicinity of Frazeysburg. She stated that she did not care to press the homicide against the prisoner as she was too old and then it had happened so long ago that it was doubtful if a conviction could be secured.

An Advocate representative called on Nether's at the jail Sunday and the latter talked freely of his crime. He is a little bent with age, has gray hair and a gray moustache and piercing eyes. He looks as if he

might have been a powerful man in his day.

To the question of the reporter as to whether he would care to tell of his shooting of Huff he replied: "Why certainly, I will tell you all about it, but it has all been forgotten and I would rather you would not publish it as it will only cause people to talk about it that don't know anything about the facts."

Continuing he said: "Abe Huff and I had had trouble over a strip of land east of Frazeysburg. Abe threatened to 'do me' and all my family. One day I came along horse-back and Abe stepped into the road with an armful of stones. He let the first one go and it grazed my arm. I then pulled my gun and shot him dead. He did not live over two minutes. I then left him lying in the road and went on home and put up my animal after which I went into the house and packed some grub, intending to hide out in the hills until I saw what became of the case. I lived in the hills of Hanover and Ioneville township for five months and the neighbors were good to me supplying me with food and milk. I kept in touch with the shooting and some of the neighbors wanted me to give myself up and prove self-defense. My lawyers sent me word to leave the country as I might have a hard time securing my acquittal."

"I left about the first of the year in 1878 and went direct to California where I secured a job working on a farm. Next I worked on a fruit farm and then later went into the timber business and remained in California until over three years ago when I thought I would return home as I was getting old and I realized that the killing of Huff had probably been forgotten. I went back to Hopewell and I have lived there ever since. No one disturbed me and all believed that I must have had cause to fire the shot that killed Abe Huff. The officers here in Newark and also in Zanesville, knew where I lived and if they had wanted me for the shooting they could have gotten me at any time."

Nether's would not admit, however, that he made the liquor found in his home or that he had "boot-legged."

GERMANS ATTEMPT TO REASSURE THE TURK POPULATION

(ASSOCIATED PRESS TELEGRAM)
Paris, March 15.—The Havas Agency publishes a dispatch from its correspondent at Athens reading: "News reaching here from Constantinople, sets forth that the Young Turks are beginning to find their position difficult and preparing for flight."

"The Germans, a great number of whom have sent their families to places of safety, continue their efforts to convince the Turks that the Dardanelles are impregnable, but the inhabitants, worried by omens, are showing much uneasiness. Every morning they mount the house-tops and scan the sea of Marmora and the Bosphorus to see if any hostile fleet is in sight."

"The Sultan Selim, formerly the German cruiser Goeben undoubtedly is out of commission. There is a rent in her armor eighteen yards long, said today to have been caused by a Turkish mine."

RECOVERY OF WILLIS' MOTHER VERY DOUBTFUL

It was reported today that because of her advanced age, recovery of Mrs. Willis is doubtful.

RELIEF

OF PRZEMYSL, OBJECT OF DETERMINED EFFORT OF AUSTRONIANS AND GERMANS.

Russian Besiegers of Fortress Are Confident the Operation Will Be a Failure.

(ASSOCIATED PRESS TELEGRAM)
Petrograd, March 15.—Via London—Austrian forces, supported by a large German contingent, again are making a determined effort to relieve the Przemyśl fortress in Galicia, besieged by the Russians since the early months of the war.

Having failed in their movement in east Galicia, near Stanislaw whence they hoped to strike northwest in the direction of Przemyśl and having transferred the center of their operations further to the west, they are now attempting to take a direct route from Ujok Pass, to the north. In the vicinity of Stuben, almost half way between Ujok and Przemyśl, the Austrians encountered serious Russian resistance and the success of their movement depends upon the outcome of their concentrated efforts to break through the Russian lines at this point.

The simultaneous closing in of the Russian besieging forces upon Przemyśl and the occupation of Matkovitz within three miles of the fortress, made the situation at Przemyśl more interesting than any other just now in Galicia.

Russian military authorities today expressed confidence in their own security in Galicia. In view of the reported success of their troops in checking Austrian attacks at important places on the Carpathian front, they are confident that the present advance toward Przemyśl will result in failure.

FOOD SUPPLIES ARE BOUND FOR PROGRESSO.

(ASSOCIATED PRESS TELEGRAM)
New Orleans, March 15.—The Norwegian steamship Alm was on her way today from here to Progresso, with a valuable food cargo purchased here by merchants of Merida, capital of Yucatan, who were sent to New Orleans to relieve the shortage of food in that city.

Prominent Merida merchants here said they had received assurances that the Washington government would protect all shipments of food to Yucatan.

The Alm is one of the first vessels to sail for Progresso since Carranza ordered that port closed Feb. 18.

UNEMPLOYED

IN UNITED STATES IF PUT TO WORK WOULD EARN BILLION A YEAR

President of Telephone and Telegraph Corporation Makes Suggestive Return of Prosperity

(ASSOCIATED PRESS TELEGRAM)

New York, March 15.—There are two million persons unemployed in the United States, whose yearly earnings should at least be \$1,250,000,000 says Theodore N. Vail, president of the American Telephone & Telegraph Co. in the annual report of the company, issued today. These unemployed are now living at the expense of their savings, their friends or the public, he says, and what is needed to bring about their re-employment and the return of prosperity is a restoration of conditions which would inspire confidence in the securities of public service and manufacturing enterprises to enable them to obtain capital for extension and improvement.

A billion dollars a year is needed, he asserts, to put these enterprises in a position to meet the demands of the country both as "growing" and "going" concerns and if they could begin the expenditure of even a part of that sum, "it would soon restore the normal conditions of employment, expenditure, consumption, and production."

"The circle of industrial conditions would again be balanced," he says. "Shops and factories would be filled and instead of the bread line, there would be a working line night and morning between place of employment and homes."

Mr. Vail pleads for regulation that "will be thorough and effective and at the same time equitable just and practicable." Remark that in the past the position of public service companies had been made difficult by the activities of "irresponsible demagogues," he expressed the belief that the public would "see that justice is done."

"Control and regulation can become destruction instead of constructive," he continues. "They can delay and paralyze commerce. Demands of labor for increased wages and shorter hours and demands of the public for increased service must be met by increased revenue produced by increased rates."

Mr. Vail cites the falling off in the telephone business—"the last to feel depression and the first to recover,"—as indicative of the business due to the European war. The increase of the number of subscriber stations last year was only 76 per cent. of the number added in 1913 and the smallest in any of the four previous years, according to the report.

LORD KITCHENER

(Continued on Page 2, Col. 4.)

Kitchener urged firms in certain lines to place their spare labor and machinery at the disposal of the government. He said he considered that men engaged in the supplying of munitions were serving their country as much as the men in the field and that a medal would be issued to workers on munitions of war on the successful termination of hostilities.

The health of the British troops was remarkable good, was another declaration made by the war secretary and a striking testimony to the value of inoculation.

Speaking of the Russian campaign, Earl Kitchener remarked that the German attacks were either well held or had been driven back.

In conclusion, the speaker said the government was considering arrangements by which armament firms could come under government control and their employees reap some of the benefits which the war had automatically brought to their employers.

13 Ships Sunk By German Cruiser Since War Began

(ASSOCIATED PRESS TELEGRAM)
Rio Janeiro, March 15.—The German auxiliary cruiser Kron Prinz Wilhelm, which had aboard 500 German sailors, has sunk 13 vessels since she began her raid on commerce, according to the passengers and crew of the French steamer Guadeloupe, who were taken to Pernambuco by the British steamer Churchill. The Guadeloupe was sent to the bottom by the Kron Prinz Wilhelm near the Island of Fernando de Noronha, off the eastern extremity of Brazil.

NAVAL EXPERTS ARE EXAMINING EITEL TO DETERMINE REPAIRS.

(ASSOCIATED PRESS TELEGRAM)
Newport News, Va., March 15.—American naval experts were going ahead today with their examination of the Prince Eitel in drydock here to ascertain what repairs are required to make the vessel seaworthy.

Captain Thierichens, of the Prince Eitel has thus far failed to notify the American government how long he desired granted for repairs.

The fate of Charles Frank and Robert Rogers, the crew of the American sailing ship William P. Frye, destroyed by the Prinz Eitel, detained aboard the German vessel, today hinges upon instructions from the treasury department regarding representations to be made to Captain Thierichens. The decision revolves around the question as to the right of the captain to take men from an American ship and hold them for the German naval service, even if they are Germans and subject to such service.

Four allied warships are waiting outside and Virginia Capes for re-appearance of the German cruiser. It is said that two of them are British and two French.

APPEAL CASE

FROM COMMISSIONERS TO JURY IN PROBATE COURT, WHICH REDUCES FORMERS AWARD.

Noah and Herman Cooperider Looses y Taking Suit Up—News From Courthouse.

The jury reported to Judge Robbins Hunter this morning in the Graham road case, finding a verdict of \$250 each for Noah and Herman Cooperider.

The case was carried up from the commissioner's office, that body awarding the Messrs. Cooperider \$750 damages and \$250 compensation. The compensation still stands in probate court as the case was only carried up on error. The viewers had awarded the Cooperiders \$750 damages, therefore they are the losers by carrying the case up as they will also have to pay the costs for doing so. Had they recovered a larger damage than that awarded by the commissioners, then the latter would have had to pay the costs, which it is said will be over \$150, not including the attorneys' fees.

The proposed alteration of the Graham road will be made in Bowling Green township, and is of vast importance from the fact that it will entirely cut off two of the worst hills in Licking county.

Divorce Petition.

Charles M. Arrasmith has filed a divorce petition in the court of Probate Judge Robbins Hunter, asking for a divorce from Bonnie Lee Arrasmith. The parties were married at Hillsboro, O., January 31, 1903. He charges that she has been wilfully absent from home for more than three years.

Marriage Licenses.

Luther Sherman, farmer of Madison township, and Mary E. Helsley, of this city. Rev. W. D. Ward named to officiate.

Alva H. Dixon, gas marker at bottle plant, and Miss Carrie A. Berry, both of this city.

Grover C. Faucett, farmer, and Miss Annie L. Wilson, both of this city. Rev. A. B. Cox named to officiate.

Charged With Assault.

Samuel Lanning was arrested on the affidavit of E. Shimmel, charged with assault with intent to kill. Lanning is a son-in-law of the latter. The hearing will be in Justice Scott's court.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

LUCKY AND UNLUCKY

The Licking Creamery Company today held its first monthly drawing for free milk and cream tickets in accordance with its liberal policy as announced in these columns from time to time.

The drawing was held at its office in Elmwood Court and was conducted by Mr. B. F. Kent of Kent Bros., the well known W. Church St., Florists.

UNLUCKY.
The first four numbers drawn were held by customers who had not paid their accounts in full for February. Later another customer was doubtfully unlucky, as numbers held by her were drawn twice thereby entitling her to two dollars worth of tickets, but unfortunately she had failed to pay her February account in full.

LUCKY.

SLEPT THE WHOLE NIGHT THROUGH

Did the Mother of Ten Children After Trying Nerv-Worth—Had a Restless Sleep.

"Stomach trouble, nervousness and sleeplessness have laid heavy burdens on my health and comfort for years. Indeed until I began taking Nerv-Worth I had suffered with nervous troubles all my life. I am the mother of ten children, seven girls and three boys, and my nerves gave out, and although I doctored with many physicians none seemed to do me any good. With Nerv-Worth it was very different. One bottle of that wonderful medicine has given me better rest at night than I have had for years. I do not wake up at intervals as I used to, but sleep the whole night through, thanks to Nerv-Worth and the Evans drug store. In three weeks Nerv-Worth has done me more good than anything else. To those who suffer with stomach troubles or nervousness I say with all my heart: 'Take Nerv-Worth.'"

This is the written statement made not long ago by Mrs. Ella Varney of 271 North Fourth street this city. Buy Nerv-Worth at the T. J. Evans drug store. Sold on guarantee, \$1.00 a bottle.—Adv.

SLANDER IS SUBJECT OF FR. O'BOYLAN

Sunday at the late mass in St. Francis de Sales church Father O'Boylan delivered a very strong sermon against the sin of slander and detraction. The occasion that called for his denunciation of this crime he said was a most cruel and infamously false report concerning some of the very best young women in the city, and the involving of the names of two clergymen one who was formerly an assistant of Father O'Boylan and another who is still his assistant. The speaker gave the law of the church as to the necessity of making full reparation for the injury done before forgiveness can be obtained from God, and quoted several texts of Scripture bearing on the same obligation and clearly proving what God demanded of the slanderer and the punishment to be inflicted in the next world on those who shall not make full amends for this sin; and in the next place he showed the dangers those guilty of such a crime expose themselves to. He pointed out the law of Moses in regard to the dreadful crime of calumny and illustrated this by several examples especially in the case of the chaste Susanna, whose detractors were condemned to the death that she was subject to had she been guilty of the crime of which these wicked elders charged her. He also referred to how the court in certain states of the Union acquitted men who avenged themselves on those who attempted to destroy the good name of their wives and daughters and how every high minded person generally sympathized with the man who was carried away with passion at the sight of his injured family. The moral assassin who takes away the fair fame of a chaste woman is guilty of a greater crime than he who slays his neighbor in a moment of anger, and deserves to be held in abhorrence by everyone. The speaker said that while the law of Moses was no longer recognized, it seems that it was nothing but the expression of human nature which seeks to remove the cause of an outrage that destroys not only the peace of the family and the community in which one lives, but robs a woman of that which is dearer to her than life itself. Hence, the speaker warned people to guard themselves against the foul crime of calumny and detraction and to avoid as a leper anyone guilty of such a vice. The speaker promised to treat the subject more fully on next Thursday evening. It may not be out of place to add that the parents of the injured young women as well as others are investigating the charges and have already gotten a clue on several women and some men who have been busy spreading the lying reports and as soon as sufficient evidence can be obtained for specific charges, criminal prosecution will be commenced in the courts. It is certainly a sad state of affairs in this city, Father O'Boylan said, when wives and daughters whose lives are absolutely above reproach are not permitted to leave the city for a few weeks without incurring the damnable suspicion of malicious and salacious minds and hearts. The rector of St. Francis de Sales church went so far in his impassioned discourse as to say that he would like to have a law by which they could brand the faces of the wicked women who conceived those false reports and send them down to their graves with the letters S and L burned into their cheeks so that all would recognize them as slanderers and liars. And as for the man who would take part in the same malevolent crime, he would not blame the incensed father or brother who would cripple for life the scoundrel who would be guilty of such, if satisfaction could be had no other way. He said this was not the teaching of Christ or the church, but it was the old law of Moses and of Nature that passion and outrage call for so often when the civil law fails to carry justice.

EFFORT MADE TO WIPE OUT ENTIRE INDIANA FAMILY

(ASSOCIATED PRESS TELEGRAM)
Terre Haute, Ind., Mar. 15.—With two dead and four others badly beaten, the police believe an effort was made to wipe out the entire family of William Baldridge last night. The two young sons of Baldridge were found dead in bed by a neighbor today and further search revealed that Baldridge's wife and three younger children were in a serious condition in another room of the house as a result of being beaten.

The Baby's Welfare a Mother's Dread

A fear clutches at the heart of the mother that her own little one may not live long. She dreads its second summer, or that it may never wake from its sound sleep. All mankind loves a mother—loves to see a mother love her child. A baby and its mother are insured against ill-health if the mother takes Dr. Pierce's Favorite Prescription, a tonic for women that Dr. R. V. Pierce invented nearly a half century ago for women's ills. This is a vegetable tonic, made only of the chemical roots with glycerine, which puts the female system into perfect, healthy action. Before baby's coming it is just the tonic that puts the womanly system into a proper condition to make the birth painless and to insure a healthy child.

Many mothers of families in the United States have reason to be grateful to the person who recommended Dr. Pierce's Favorite Prescription. It is put up for the single purpose of curing disease peculiar to women. It has sold more largely on this continent than any other medicine for women. Another medicine for women. Another point in its favor; it is a temperance remedy and does not contain a single drop of alcohol nor of any narcotic.

Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. Dr. Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.

MISFORTUNE

SEEMED TO FOLLOW W. C. KUSTER LAST SATURDAY, MARCH 13th

A black cat which twice crossed his path on Friday, or the fact that Saturday was his 13th of the month is assigned by W. C. Kuster of the Arcade Servise restaurant for a series of misfortunes which overtook him on Saturday.

His son-in-law, Joseph Coelho, was seized with a serious illness, his mother-in-law, Mrs. C. E. Haas, suffered a dislocated wrist, he was waited upon by a lawyer retained by a former employe who claimed damages for personal injury, the sewer in the basement of his restaurant became clogged and flooded the floor, the laundress employed there fell and sprained her wrist and finally he was accused of stealing a Collie dog last summer.

"I didn't go to bed until after midnight," said Mr. Kuster. "I wanted to see what else would happen before the day was over."

It was shortly after 4 o'clock when Mr. Kuster's daughter, Mrs. Coelho, came to his home with word that Mr. Coelho was ill. He suffered from an attack of acute indigestion, and it is supposed it was caused by canned lobsters which he secured from a grocery.

Mr. Kuster's mother-in-law, Mrs. Haas, went to the Coelho home to aid in caring for the sick man. She had no sooner reached the top of the stairs when she fell and dislocated her wrist.

A few hours later, while at his place of business, a lawyer called to say that a former employe who was hurt in the place while repairs were being made, had filed a claim for damages. Mr. Kuster made a satisfactory adjustment of this matter and a short time later one of his employes came with the information that the sewer in the basement laundry was clogged and the floor flooded. He secured a plumber and relieved that trouble and sat down for a minute in a dazed condition, so rapidly had events been transpiring.

Then came the word that the laundress had fallen and sprained her wrist. He got a doctor for her and had her sent home.

The last straw was the complaint of the man who had lost his dog. He accused Mr. Kuster of stealing the animal and selling it in the country. Mr. Kuster established an alibi here and waited for the next event. Fortunately the midnight hour arrived and the spell was broken.

Mr. Kuster says that on Friday afternoon while in Franklin's addition, a black cat crossed his path, stopped and looked at him with a malicious glint in her (or his) eye. Then it slowly walked back across his path again.

"I'm not superstitious," he said, "but what can one expect with a combination like that?"

YOUNG MAN WAS ARRESTED AT THE DINNER TABLE

Just as he seated himself at the table to eat Sunday dinner with his parents in Johnston, Emmet Hall was placed under arrest and forced to leave the table without a bite to accompany Sheriff Jack Evans to Zanesville. Hall is wanted on a charge filed in juvenile court for alleged contributing to the delinquency of the minor children of Fannie Shipley of Roseville.

Mrs. Shipley was arrested on a similar charge several days ago, but Hall heard of the affidavit being filed and fled from Roseville. The woman was given a suspended fine of \$150 and costs. Hall was given a restaurant lunch in this city was taken to the county jail at Zanesville to await a hearing.

SALE OPENS FOR "CHIMES OF NORMANDY"

The reserved seat sale for "The Chimes of Normandy" opened this morning at the box office of the Auditorium there being a fair sale. There are still many desirable seats and those wishing to enjoy an excellent play by local singers should call and make their reservations at once. The play will be given Wednesday evening, and is under the auspices of the Newark Mendelssohn Choral Society.

The cast of characters is in excellent hands and the well-known comic opera will have a swing of professionalism seldom found among amateurs. There will be a full dress rehearsal Tuesday night when the finishing touches will be put upon the production.

The stage manager, Ralph E. (Bones) Davis, is obtaining splendid results and says that the members of the company will surprise even their most intimate friends by their display of histrionic ability. Mr. Davis will sing the part of the "Bailli," and his friends know that he will do it well, for he has been on the professional stage for a number of years.

G. W. Rogers as the "Notary," is bound to make a hit also, and carries his part very well. John Birmingham as the "Registrar," and Walter Rauck as the "Assessor," do some excellent work in several scenes. Miss Grace Dennison as "Gertrude," Mrs. Charles Stem as "Jeanne," Miss Edna Streit as "Manette," and Miss Marie Bourner as "Suzanna," the village maidens, will be heard in several very fine numbers.

Mr. F. M. Schimpf, president of the society, has been working like a trojan to make the opera a success, and his hopes are going to be realized far beyond his expectations.

Following are members of the male chorus: Louis Kureth, Herman Gundlach, George Calhoun, John Davis, Ernest Lieber, John Coda, Richard Holler, George Winters, Carl Fox, Ray Bailey, Lewis Peoples, F. E. Fisher, Willis Trost, Anton Williams, Arthur Cass, James Smith, Joseph Ingram, F. M. Schimpf, John Riegger.

Woman's chorus: Frances Bausch, Frances Oberfield, Celia Adams, Keryel Roser, Eva Winters, Allene Danforth, Irene Winters, Mary Gilmore, Helen Rogers, Mary Johns, Marguerite Stare, Sarah O'Shaughnessy, Helen Talbot, Elizabeth Adams, Hazel Stasel, Jeanette Talbot, Hattie Reinbolt, Claire Kureth, Anna Callen, Regina Dwyer, Justina Smith, Julia McCarty, Anna Stare, Margaret Bradley, Kathryn Schopen.

Will Inaugurate a Peace Movement After End of War

(ASSOCIATED PRESS TELEGRAM)
New York, March 15.—Inauguration of a movement to bring about a world-wide restriction of armies and navies by international agreement after the European war ended, is announced today by the American league to limit armaments, says the league's announcement. "We are not promising methods to bring peace to Europe until Europe is ready to stop fighting, of its own accord. We stand by what we hold to be the main proposition—that the reduction of all armaments to the least proportions consistent with the demands of normal tranquility and the use of the money going into destructive engines of war for the constructive agencies of peace, is the true solution of the peace problem."

STRENGTH Without Overloading The Stomach.

The business man, especially, needs food in the morning that will not overload the stomach, but give mental vigor for the day.

Much depends on the start a man gets each day as to how he may expect to accomplish the work on hand. He can't be alert with a heavy, fried-meat-and-potatoes breakfast, requiring a lot of vital energy in digesting it.

A Calif. business man found a food combination for producing energy. He writes:

"For years I was unable to find a breakfast food that had nutrition enough to sustain a business man without overloading his stomach, causing indigestion and kindred ailments."

"Being a very busy man and also a very nervous man, I had decided to give up breakfast altogether. But luckily I was induced to try Grape-Nuts."

"Since that morning I have been a new man; can work without tiring, my head is clear and my nerves strong and quiet."

"I find that Grape-Nuts, with a little sugar and a small quantity of cold milk, makes a delicious morning meal, which invigorates me for the day's business."

A gorgeous new spring hat dazzles all the men except such as contemplate matrimony.

It seems strange that the tax rates of most towns are advancing, when no particular trouble is experienced in borrowing money for anything that is wanted.

The bakers in many places have generously and gracefully yielded to the popular demand by reducing the price of bread again to five cents per loaf, the loaves being two ounces smaller.

Practical Preaching.

The religious press of the country, and the secular newspapers too, are full of discussion for and against the methods of Rev. Billy Sunday. Ministers are flocking to Philadelphia by the hundreds to study his methods. Not many of them will care to adopt the more eccentric features of the Sunday ministry. But there are phases of the Sunday methods that every clergyman will find worthy of study.

Some ministers shut themselves up in their study and read books on religion and philosophy. The books are helpful, mentally stimulating. The parson's mind is uplifted by their broad outlook. He preaches the next Sunday from what the philosophers and theologians have said to him.

Now such sermons are occasionally needed for the broadening of the intellectual life. But they deal with problems that bother the philosophers and the theologians, but may never have troubled the ordinary man and woman. The people celebrate abroad the eloquence and intellectual powers of their pastor. But little has been said that has helped or inspired them much.

Other ministers spend more time among their people. They learn the doubts, troubles, difficulties, and problems with which their parishioners are suffering. They observe human nature closely. Their minds are full of specific cases of people who have found rest and peace and help through various experiences. They try to communicate this help to the members of their congregation. Their sermons may not be very scholarly. But they inspire their hearers to renewed courage and strength to fight life's battles.

Probably right here is one of several reasons for Billy Sunday's marvelous success. He deals with practical life, with the problems that meet the average man and woman. The average preacher, without imitating Billy Sunday's slang, can give his sermons the quality of human interest that the Sunday sermons always have.

A man is making fair progress if he has more sense now than he had last year.

A good deal of fault is found with the street railways, but the facts are that the street railways sell more for five cents than any other enterprise in the world.

There is a good deal of adverse criticism directed at society, but observation will show that society people behave as well as any other class and are more polite about it.

The people of our town do not think of Madame Bernhardt as the greatest actress in the world. They remember her as the woman to whom they paid \$3 to hear "Camille" in a language unintelligible to them.

The common or garden variety of fool is not particularly objectionable. Most of the annoyance in that connection comes from the fool who claims to know it all.

A Reflection.
When I've upon the first of men
The apple pressed with precious tant,
O, what a pious and pious tant,
That Adam was not Adamant.

But when the Serpent tempted Eve,
The blunder of her life she made,
We should not have such cause to grieve,
If Eve had spelled her name Evade.

Spirit of the Press

The Little Nickel.
Our fellow-citizens the Washakie Indians of Utah are wholly within their rights when they criticize our small coinage, but they exhibit ignorance of fundamentals when they assume that the profile on our 1-cent piece is that of a squaw. On the contrary, it is meant to do honor to the Goddess of Liberty, and the aboriginal countenances mistakenly regard as an Indian war-bonnet is that which Liberty, with some variations, has worn from the beginning.

The Washakie complaint that the nickel is not big enough is another matter, and a good many white men will join in the protest. There was a time right here in New York recently when it was not big enough to buy a loaf of bread.—New York World

Dollar Day.
Canton is to have a "dollar day." The "get-together" meeting of Canton merchants Wednesday night was the success which it was forecasted a day or so ago in this column it would be, and the "dollar day" plan is only one of the many good results. This "dollar day" will advertise Canton in the surrounding territory. It is one of the methods by which a city extends the radius in which it is the trade center. But it will do more than this. It will be an object lesson in the possibilities of city co-operation—which is probably even more important.—Canton News

An Interesting Suit.
A Pennsylvania Railroad engineer has sued for half of the \$12,000 his wife has saved in their thirty-six years of wedded life. The decision in the case will be of great interest to many families. Perhaps such disputes might be compromised out of

court by an agreement on the part of the saving wife to pay the husband and provide an annuity or allowance.—New York World.

The Wm. P. Frye.
It appears that the William P. Frye was insured against war risks by the Government Insurance Bureau in the Treasury Department; and it is one of the conditions of the policies issued by the bureau that if the vessel covered by it should carry absolute contraband, or conditional contraband, destined to the armed forces or Government of a belligerent State, the insurance would be void. If this Government should agree with the captain of the Eitel Friedrich that grain shipped "to order" to a belligerent port is contraband it could evade payment. Of course, this will not be the case, and Germany herself would be averse to have foodstuffs adjudged contraband. This Government will not have to pay, because the German Government will be glad to do so to avoid the creation of a precedent unfavorable to it.—Philadelphia Record.

Willis Administration.
The Columbus Dispatch boldly says this Republican state administration stands convicted of deliberate deception of the voters, and of obtaining power on false pretense, in that it cried through the campaign that there would be a treasury deficit, and now the surplus runs well up in millions and more revenue will be raised this year than was spent last year. Then there are other charges now which the Willis administration must face. In the campaign much was said against Democratic administration which hasn't been borne out since the change the first of the year, and the promises made in the campaign are not being redeemed as the people had a right to expect.—Youngstown Vindicator.

WAR AND PEACE.

I talked with Wax, my neighbor about the boon of peace, the work or gain and saore, we both agreed, should cease. There is no sense in fighting in killing men." Wax said "all wrongs men should be righting by peaceful means instead but then the allied nations of peace were tired and sore, and hence these tribulations— they simply honed for gore. And then I, I preached some sermons, to show that Wax was wrong; the blame rests with the Germans, with war machine so strong. One word led to another, until we came to blows and Wax that man and brother, I smote upon the nose. He climbed upon my shoulders, and loosened seven slats; and then we threw some boulders old cabbages and cats. The peels came and choked us and dragged us off to jail, and then the jurist soaked us for quite a bunch of kale. And since that day I'm wiser, I talk of peace no more; I know how king and kaiser get mad and thirst for gore. "The banish war" oration looks now like thirty cents; for man is like a nation, and kings are human genies.

Readers' View Point

Wheat Crop Prospects.
Editor of The Advocate:
In the last ten days I have been in the southeastern, northern, northwestern, southwestern and southeastern portions of the state and have passed through many counties to reach the points.

Practically everywhere last fall's seeding of wheat seems to be coming through in fine shape. Much plowing has been done during February and March—a very great contrast to conditions of last spring.

We have just recently acquired a new county experiment farm in Mahoning county. The farm is near Canfield, about 10 miles from Youngstown, consists of 275 acres, and cost \$28,000. Mahoning county wished to rival Hamilton county and quite a number of lines of work will be started on this farm, though it is a little late to get much work under headway this spring.

I find it quite a task to get good foremen for these experiment farms. Many men want to work on them, and are willing to labor, but keeping the records is where they fall down. They just can't quite comprehend the necessity of keeping daily records of the rainfall and temperature and the day they planted and harvested the crops. However, these records are absolutely necessary or no correct conclusions can be drawn from the work. To illustrate: Last year in Paulding county we noticed a field of sugar beets—a very poor stand—and near-by this another field of beets—a very good stand. Was one farmer more negligent and a poorer farmer than the other? Going to the records we find that in the field where the beets were a very poor stand they had had a dashing rain a few days after the seeds were planted. This puddled the soil and then a hot sun crusted the surface so that the little beet plants could not get up. In the other field the seed-bed was not prepared until after the rain and a fine crust was the result. Weather conditions then, in both cases were responsible—the one field being a source of pleasure to the eye and profit to the owner, and the other an expense and source of loss. Quite frequently we hear farmers blaming weather conditions for their failures, but the records do not allow them show the cause to be well founded.

show that as a rule they are not good at keeping records, and this is a great drawback to a correct analysis of their business. I think every farm boy and girl should keep a diary and then when they come to take up the work the habit of keeping daily records will have been formed and they will not dread the task.

Americans Ignorant of Japanese Ideals and Conditions
By Dr. TOYOKICHI IYENAGA, Japanese Statesman

It is well for the American people to know and know once for all that Japan does not want the Philippines, and if you offered them to her she would not take them. WE CAN SEE NO REASON WHY THE UNITED STATES SHOULD SHED THAT BURDEN TO THE SHOULDERS OF JAPAN.

If I were to address a Japanese audience on America I would proceed somewhat in the following fashion:

"In dealing with the American people study with care their temperament and idiosyncrasies, learn with devotion their ways and modes of thought, appreciate their great and good parts, and they will not fail to reciprocate. Be frank, open hearted and speak out your heart without reserve and mincing words. If any act of injustice be done by them unto you be patient, but firm, in your stand."

"MOST OF ALL, DO YOUR BEST TO MAKE KNOWN TO THEM JAPAN AND THE JAPANESE, FOR THE VAST MAJORITY OF THE AMERICANS ARE QUITE IGNORANT OF YOUR THOUGHTS, IDEALS AND CONDITIONS. THIS IS THE ONLY WAY TO MAKE FRIENDS OF AMERICANS AND KEEP PEACE FOREVER WITH AMERICA."

Luke McLuke Says:
A man never discovers that he doesn't know a woman until after he marries her.

You can find out more about a man's

Some men sit down all day and while that luck is against them. And then they wonder why they do not make good.

The married woman who stays home and does her own housework may have rough hands. But her conscience is usually smoother than that of the married dame who paints up and gadd around town all day.

Some men have no sympathy with the poor because they believe that people should not permit their appetites to outgrow their incomes.

We are always willing to forgive those who trespass against others. What has become of the old fashioned woman who used to open a can of tomatoes with hot coals?

There is only one way to get wisdom, but there are 900,000,000 ways to make a fool of yourself.

Things are not arranged right in this world. The Society For the Prevention of Cruelty to Animals will arrest a man who beats a horse, but it doesn't take any action against a woman who kisses a dog.

If a woman would try to make as much of an impression on her husband when she is at home as she tries to make on strangers when she is out there wouldn't be so many unhappy marriages.

I may be an iconoclast, but I want to put you wise to something. The fellow who carries a cane isn't a blame bit more important than you are.

When mother whips the children father tries to be absolutely neutral. But when father whips the mother kisses them and tells father that it is a shame to beat the poor children because they can't help the fact that they inherited their orneryness from their father.

And as for the spring styles in female headgear! All the samples we have seen thus far look as though they were designed by a cabinet artist when he was suffering from the d. t. s.

Mother can always remember daughter's birthday, but she always manages to forget her own.

Buying Electric Current Will Not Put Newark At Mercy of the Corporation

City Will Maintain Distribution System and Power Plant So It Can Resume Business If Relationship With Private Company Is Not Entirely Satisfactory.

The City Light Plant consists of a power plant located near the City Prison and a distribution system.

It is current is bought from The Ohio Light & Power Company the power plant will not be used but can be maintained ready for use.

The distribution system in all of its parts the city will continue to maintain and operate.

A contract for current can be made with The Ohio Light & Power Company for one, two or any period up to ten years.

If the service is unsatisfactory the city can terminate it at any time.

During the life of the contract the price will be fixed.

Before the end of the contract the city can negotiate for a new contract and if a satisfactory price cannot be obtained, it can then install its own power plant and the people, one and all will support it in so doing.

So long as the city owns its distribution system it cannot be at the mercy of any corporation for current.

Such talk is idle and unworthy of anyone who gives the subject consideration.

Your Boys and Girls

The bathing of the baby each morning should be a systematic process, never done hastily or carelessly. There should be a thermometer for the room and one for the bath itself. The room thermometer should register from 75 degrees to 80 degrees F. For the first eight weeks of the baby's life, the bath thermometer should show that the water is 100 degrees F. From two months to six, the temperature should be 98 degrees F. From six months to twenty-four it should register from 85 to 90 degrees F.

A baby should not be laid into the tub and hastily sponged off. The operation starts with baby laid comfortably on a warm blanket, spread on mother's knee. First the face and head are washed with clean gauze and dried. Next, the eyes, nose, ears, and genitals are washed with a piece of absorbent cotton, wet with a solution of boracic acid and water, a teaspoonful of the acid to a pint of warm water. This

absorbent cotton is then burned, or thrown away, never used again.

Now baby is thoroughly soaped and laid in the tub, its head firmly supported so that the water does not run into the eyes or ears. A fresh piece of absorbent cotton is used to rinse off the soap, the baby is lifted from the water, dried quickly with an old soft towel and powdered. The drying should be done by patting, not by hard rubbing, and the creases are dried before the talcum powder is applied.

10 CENT STORE, IN MINIATURE, FOUND IN MAN'S POCKETS

W. H. Sturman was arrested today on the affidavit of Smith Crego, the South Third street grocer, who charges the defendant with obtaining goods under false pretense. Crego claims that Sturman came to his grocery and represented himself as an employee of the American Bottle plant and he gave him credit. That at the end of two weeks he called the grocer or had some one call, representing that they were an officer of the company and stating that there had been an error in Sturman's pay and that it would be held up for two weeks longer and to let Sturman have credit and they would guarantee it. He failed to come in and settle and an investigation showed that he had never been employed at the plant.

When Sturman was arrested and searched his pockets contained a new life, several month harps, watch, fountain pen, box of dominoes, tooth brushes, box of tooth picks, coin case, tape measure, drinking cups, rubber balls, in fact "many other articles too numerous to mention," in fact he was a regular traveling five and ten cent store. He did not explain how he came to have the articles in his possession when he was brought before Justice F. S. Scott and that official telephoned for the manager of the Woolworth store and the latter identified the goods by the store's cost mark.

Sturman will be tried Tuesday afternoon by Justice Scott on the charge of obtaining goods under false pretense and the manager of the Woolworth store will file charge of larceny against him this afternoon.

MILADY'S FEET.

The return of the short skirt and the popularity of the modern dances have called the feet into prominence again and, therefore, every woman will want, this Spring, to have shapely feet and ankles.

Exercise and massage will do much for unshapely ankles. It must be understood, however, that if the bone is large nothing can be done, while it is a simple matter to remove flesh. It will only require twenty or thirty minutes each day to exercise the ankles so that they will become slender and shapely.

First, remove the shoes and stockings and sit with one knee crossed over the other. Now move the foot about in a circle, using the ankle joint only. When you become tired move the foot up and down until fatigued, and then change to the other foot. Another effective exercise is to stand on both feet and turn the feet from side to side at the ankle.

To improve the contour of the foot it is necessary to pay attention to the corns, calluses and enlarged joints. Be quite sure that you wear

well-fitted shoes, for there must be no pressure against any one part of the foot.

When the outline of the foot is affected by callouses the process of removal is simple, but requires time. First soak the feet well in hot water, then, after they are dried, rub the callouses until the skin peels, but be extremely careful that you do not injure the tender flesh beneath.

If the callouses are painful I would apply simple tincture of iodine daily. This will cause the surface to peel and will prevent a further accumulation of dead skin.

It is impossible to restore an enlarged joint to its normal side, but you can improve the shape of the foot by placing a wedge of absorbent cotton or soft paper between the first and second toes. This will bring the toe into line with the balance of the foot.

When buying shoes, be sure to select a last that will not accentuate the enlarged joint. The long, narrow ramps with pointed toe should be avoided.

New Treatment for Bronchitis, Asthma, Catarrh and Head Colds

Vick's "Vap-O-Rub" Salve Relieves by Inhalation and Absorption.

No need to take internal medicines or habit forming drugs for these troubles. When Vick's "Vap-O-Rub" Salve is applied to the back of the body, soothing, medicated vapors are released that are inhaled all night long through the air passages to the lungs. In addition, Vick's is absorbed through the skin, relieving the tightness and soreness.

Vick's can be applied over the throat and chest and covered with a warm flannel cloth—or a little put up the nostrils—or melt a little in a spoon and inhale the vapors arising. Also for Asthma and Hay Fever, rub Vick's well over the spinal column to relax the nervous tension. 25c, 50c, or \$1.00.

BEIGIAN OFFICERS ACQUITTED AFTER TRIAL FOR TREASON.

BERLIN, Via London, March 15.—Five Belgian customs officials who were charged with treason by Governor General Bissling on the ground that they had induced other Belgians in the customs service to go to Holland in an effort to enter the German army, have been acquitted by a German court at Brussels, which decided that the evidence against them was insufficient to warrant their conviction.

Chicago Grain.
[ASSOCIATED PRESS TELEGRAM]
Chicago, Mar. 15.—Higher prices at Liverpool, where there was a large demand for wheat, had a bullish effect today on the wheat market here. The outlook for decided falling of the price of domestic wheat was not counted against the bears. Offers were scarce here until the price in London moved up 2 1/2 above yesterday's finish. The opening, which ranged from 4 to 1 1/2 cents higher, was followed by a continuous advance, until orders to purchase were filled, but then a material reaction took place. Smallness of receipts helped to lift the corn market. In addition one of the largest houses in the trade was a conspicuous buyer of futures. After a sharp advance of 5 to 10 cent up, prices scored gains all around. Large commission house demand for oats were in evidence. Pitt traders who were hurriedly covering. Large export clearances tended to steady provisions. On the other hand, there was considerable selling in small lots by miscellaneous holders.

New York, Mar. 15.—Shares of the various automobile companies, but again to the fore in today's early market operations. Gains in these issues ranged from material fractions to almost three points while the more scattered issues were less prominent. Some of the leaders showed no change from last week's close, but a few, however, listed as a whole, rose noticeably on light trading. The only notable exception was Texas Company, which fell back 3 1/2. Americans were irregular in London.

and rumors of an early decision in the suit of the government against the U. S. Steel Corporation were used to stimulate the market during the early trading. The sport was not well maintained, however, profit-taking in the motors and other specialties soon gave the entire market a decidedly bearish leaning. Obituary

John Smith.
John Smith, aged 82, died Friday night at his home three miles east of New Concord, of heart trouble. He retired in his usual health and the end came very suddenly. He had never been ill a day in his life until the fatal attack came.

Mrs. Pearl Johnson.
An illness of pneumonia was fatal at 7:30 o'clock Saturday evening to Mrs. Pearl Johnson aged 57, a well known resident of Dresden. She had been ill for grip for some weeks and pneumonia developed Thursday.

Mrs. Johnson lived in Dresden for over 20 years and before that was a resident of Frazeysburg.

Nellie, Gertrude, Herbert and Grover Johnson all of Frazeysburg are four of the eight surviving children. Mrs. Albert Wolcott, Mrs. Samuel McGinnis and Mrs. Joseph Ryan, all of Frazeysburg are sisters.

Funeral services will be held at 10:30 o'clock Tuesday morning at the home and burial will be made in Frazeysburg cemetery.

Infant's Death.
William E. son of Mr. and Mrs. O. E. Phillips of 32 McKinley avenue, died early Monday morning of bronchial trouble, aged 15 days. Mr. Phillips is the well known rural letter carrier of this city.

Burial from the home at 9 o'clock Tuesday morning. Interment at Brushy Fork cemetery.

Card of Thanks.
We desire to extend our heartfelt gratitude to all the friends and neighbors, and the Home Guards of America, who have been so untiring in their devotion, their kindness and sympathy, during the illness and death of our departed one, Fred Metz.

3-15dt The Wife and Family.

Four well known Newark business men will engage in a debate before the Men's Brotherhood of the First M. E. church at 8 o'clock tonight upon the subject "Resolved, That the purchase of current from the Ohio Light & Power Company, is preferable to the sale of bonds for a municipal light plant."

Charles Nappelt, president of the board of trade and C. Evans of the Farmers Supply Company will speak for the affirmative and Attorney J. A. Flory and E. T. Johnson will speak for the negative.

There will be no judges except the audience and no decision will be announced.

WILLIAM SMITH LOST FINGERS BY BUZZ SAW

William Smith, son of Frank Smith of 221 Tenth street, was seriously injured late Saturday afternoon while at work at the P. Smith Sons Lumber company.

Mr. Smith, who until recently was employed in the offices of the B. & O. Railroad company, caught his hand in a buzz-saw and the little finger and the next were crushed and lacerated. It was taken to the office of Dr. C. P. Legge and then removed to the Sanitarium where Dr. Legge found it necessary to amputate the two fingers.

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich. — "I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong." — Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

MANY CONVERTED AS A RESULT OF IRWIN REVIVALS

Sunday was a great day at the West Main Street Church of Christ. First, the largest Bible class in the experience of the church assembled. Following the Bible school the evangelist preached on the theme, "Deep Sea Fishing," Luke 5:1-10. He said that shallowness is the vice of this age; that skin deep methods of business, skin deep society, skin deep religion prevails, that the world, too often makes surface distinctions, ranking persons by money, position, fame, or family rather than by worth of character. He said that the American people are too much in a hurry. They do not take time to sound the depths. We need to launch out into the deep of Bible research and of Christian effort. Real religion consists of more than an empty "Lord, lord," but is a life of service and accomplishment.

Over fifty came forward when the invitation was extended. In the afternoon the evangelist proved that the religion of Jesus Christ had a divine origin because it has withstood the test of time. The empires of the Caesars, Charlemagne and Napoleon have passed away; but the kingdom of Jesus founded on love exists today, and is growing every hour. God used the weak things of the earth to confound the mighty. Without wealth, position, fame, name, influence or education Jesus proclaimed and proved Himself to be in a peculiar sense the Son of God. In the face of the fiercest and most powerful opposition ever marshaled by the Devil in earth, Jesus prevailed and His Kingdom was vindicated. Several placed memberships at this time.

In the evening to an overflowing house the evangelist spoke on the subject, "The Conversion of a Moral Man." The 10th chapter of Acts was used to show that mere morality will not save a man. Cornelius was a devout man, a God-fearing man, a generous man, and a praying man; but he needed to know about and to obey the Lord Jesus Christ and so an angel appeared to him and commanded him to send to Joppa for Peter to tell him what to do to be saved. Peter preached Christ to him and Cornelius heard, believed and was baptized, not only by the Holy Ghost, but in water as well. Thus Peter obeyed the Master's commission to "Go into all the world and teach all nations, baptizing them, etc."

Many came forward at the close of the service, making almost eighty for the day.

Tonight the sermon subject will be "The Destiny of Man." This is a chart sermon and will prove unusually interesting and instructive. Appropriate solo.

TRAFFIC STOPPED ABOUT TWO HOURS BY SUBWAY FIRE

New York, March 15.—Fire early today in the new subway under construction on Seventh avenue between 42nd and 45th streets, filled the streets with smoke, tied up traffic on a portion of the old Broadway subway and some of the adjacent surface lines, and drove hundreds of guests from the hotels clustering about Times Square. The fire was discovered at 3:10 a. m. and two hours elapsed before it was brought under control and service was resumed on the various transportation lines.

The fire was attributed to a short circuit, said to have been caused by a workman who drove his drill into a large power cable at the corner of 43rd street and Seventh avenue. A network of power, lighting and telephone wires underlies the streets in this part of the city and burning in place of these cables sent up a cloud of dense smoke. At the same time the wooden planking used in the construction of the new subway burned briskly. The firemen tore up the timbers over the subway cut and attacked the smoldering wires with sand.

The police reserves were called out to quiet panic-stricken guests who rushed from the hotels.

Carnegie Company Appeals to Men to Lead Moral Lives

Pittsburg, Pa., March 15.—An appeal to its thousands of employees to lead a moral life, as a means of increasing their own safety, while at work and of improving their chances for promotion, has been made by the Carnegie Steel company as a part of a "safety first" campaign. In a series of pamphlets, which have been distributed among the men for several weeks, the company by means of charts shows how much longer a man lives who lives "right" than one who dissipates and tells of the better school work done by children of the workman who leads a clean life compared with one who does not, and how much less liable the workman is to accident, because of his being more alert and careful. The men are appealed to strictly from a business standpoint.

MAY ESTABLISH AIRSHIP PLANTS FOR GOVERNMENT

(Associated Press Telegrams) Washington, March 15.—Congressional approval is all that is needed for the establishment of government aeroplanes manufacturing plants at Philadelphia and New York plans for such factories have been prepared by the navy department, each to cost about \$30,000 and each capable of turning out two or three machines a month at a cost of about \$6,000 apiece.

Though the war department some years ago purchased a small dirigible balloon, army aviation officials have never felt warranted in developing that type of aircraft and have concentrated all their efforts on the aeroplane. The navy, however, is about to embark on a set of experiments to determine the availability of the dirigible for use on shipboard. The ability of this kind of aircraft to hover for long periods over one spot, such as the entrance to a harbor or near a parent battleship is believed to be a valuable feature.

Specifications have been prepared for such a machine upon which proposals will be invited. By comparison with the giant Zeppelins of Germany, this will be a miniature, aircraft.

DID NOT ABOLISH DEATH PENALTY; ELEVEN TO DIE

(Associated Press Telegrams)

Little Rock, Ark., March 15.—Eleven prisoners held under sentence of death at the state penitentiary will be electrocuted, three of them this month, as the result of the failure of the legislature to pass a bill, abolishing capital punishment, it was announced today.

Four of the condemned are white and seven are negroes. The first electrocution will be next Friday.

Governor Hays had announced he would permit no capital punishment in the state until after the adjournment of the legislature and that he would commute sentences of those men condemned to die, if the bill abolishing the death penalty passed.

WHAT NEURASTHENIA IS

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, are the most common causes. Excess of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief. The symptoms are over-sensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea. The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills.

Two useful books, "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y., if you mention this paper.

AGITATORS AT IT AGAIN

MEN OF OHIO:

Petitions to force another vote this fall on a constitutional amendment for prohibition of manufacture and sale of beverage liquors are in circulation by the Prohibitionists. This same question was voted on at the election, November, 1914, and the prohibition amendment was voted down by 84,152 majority.

No reason exists for a renewal of the struggle on this question, especially since the adoption of the Home Rule amendment, whereby communities are free to vote themselves wet or dry, by municipalities or townships. The excuse given by the accredited leader of the prohibition forces, Mr. Wayne B. Wheeler, in his own words in a Portsmouth address is:

"What we plan to do is to make the saloon, distillery and brewery elements bankrupt themselves trying to keep Ohio wet. And we will succeed. We will wear them down and we will wear them out. We intend to have Ohio honorably and willingly adopt prohibition, if we have to vote long and often."

Will you, Men of Ohio, willingly lend yourselves to this piratical warfare on a part of your citizenship and on your own rights to control your personal conduct?

Every voter who is urged to sign the 1915 Prohibition petition should before signing ask himself a few questions:

QUESTION 1. Shall I line up with the prohibition crowd, which did its best to nullify the Initiative and Referendum, by claiming that no machinery existed for submitting the Home Rule constitutional amendment, although at the same election that same crowd had submitted in precisely the same way a constitutional amendment for State Prohibition? Will the voters of Ohio forget that the agency which sought to thus cripple the Initiative and Referendum was the Anti-Saloon League, and that in doing so it sought to defeat majority rule and postponed for months the operation of the adopted Home Rule amendment?

QUESTION 2. Shall I line up with the prohibition crowd, who in their efforts to defeat the Home Rule amendment resorted to misquoting its provisions and distorting its language, and on the basis of such misrepresentation obtained opinions from attorneys as to what would be the effect of its adoption, and placed these false opinions before the voters to influence their votes?

Read What Was Said By Prohibitionists Before the Election.

Read What Was Said By Prohibitionists After the Election.

"Home Rule as demanded by Brewster's Initiative Amendment to Constitution, means Rum Rule and Home Ruin. It will repeal the County Option Law, the Sunday selling, the law against sale to minors. It will prevent the enactment of future state prohibitory laws, and makes wet territory of all townships with no municipalities in them." — From poster used in the 1914 campaign by Prohibitionists.

Similar statements were made by prohibition speakers, advertised in the press and announced from many pulpits. Not a single consequence prophesied has come to pass under the Home Rule amendment, and the real local option laws—residence district, municipal and township—continue in undisturbed operation, as evidenced by many elections since the adoption of the Home Rule amendment.

Can proof more positive be adduced that the prohibitionists are willing to appear before the voters with one line of assertion and in a sworn petition before a court will make statements absolutely contrary to that made to the electorate? In defense of such tactics, a speaker at the Dry Convention, held February 2, 1915, at Columbus, advanced the policy "that above all things the truth must be told about the Drys, but that it was not so important to tell the truth about the Wets."

QUESTION 3. Shall I line up with the prohibition crowd, who in spite of the calamitous commercial conditions now prevailing, in spite of the need of municipalities, of state, and of nation for governmental revenues easy to collect and felt without burden by those who pay, force upon the voters the expense of another election on a question already decided within so recent a period? Can the voters of Ohio view calmly the possibility of a decision in favor of Prohibition which will add to the army of unemployed, cripple governmental functions and raise taxes?

QUESTION 4. Shall I line up with the prohibition crowd, who are willing, as against saloonkeepers, brewers and distillers, to throw to the winds the constitutional principle that no private property shall be confiscated by the public without compensation, a principle which is time-honored and makes for the safety of all private property without exception? Will the voters of Ohio concede such an exception at the hazard that when next the cry of fanaticism is directed at some other objective like exception can be made until no security for private property rights remains?

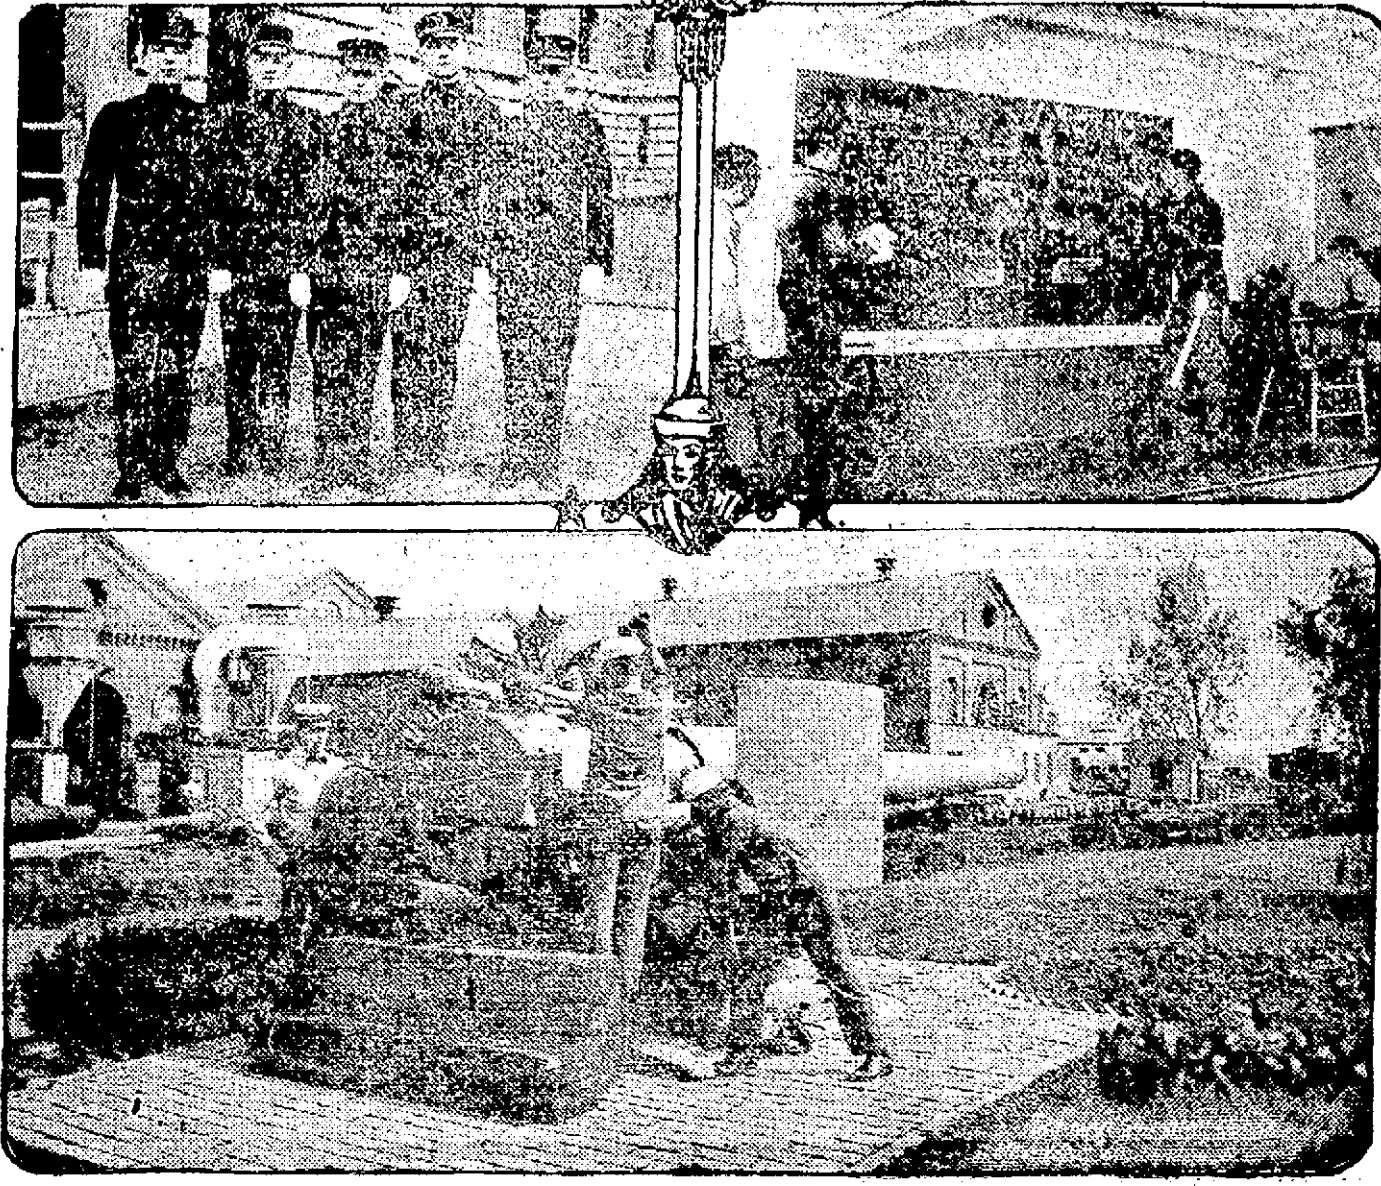

QUESTION 5. Shall I line up with the prohibition crowd who deny to adult men the freedom of choice in reasonable indulgence in liquors when the experience of every state, which has attempted prohibition, has been a chronicle of failure to obtain real temperance and the fostering of conditions lamentably more disastrous than can possibly follow the licensed, regulated saloon? Will the voters of Ohio abandon Home Rule on the subject of the sale of intoxicating liquors, abandon license and local option at the behest of men who openly declare that their object will be served by bankruptcies of their fellow-citizens?

These are among the questions which every voter should answer at the bar of his private judgment before signing the prohibition petition or voting for a prohibition ballot.

If the struggle must come and a bitter campaign ensue, which will disrupt the state, this organization, having espoused the Home Rule amendment, which it sincerely believes can and does meet the wishes of every community and leaves to each community its local self-government on the liquor question, will, to preserve that Home Rule and all that is implied by free community government, meet the issue, appealing confidently to the voters of the state for a successful outcome.

PAY AND PROMOTIONS IN OUR NAVY

Top (left), Annapolis midshipmen who rose from the ranks. Left to right, John W. Rowe, Horace S. Corbett, William W. Warlick, Harold H. Hungate, William Busk. They won their appointments in competitive examinations. Top (right), Class work, Artificers' School, Norfolk, preparing men for promotion and increased pay. Bottom, seamen gunners' class in navy yard at Washington. Section under instruction overhauling seven inch gun.

THE United States navy is the best paid navy in the world, and it presents opportunities for advancement equal to those of almost any profession. A man-of-war's man never loses his job, even temporarily, for lack of work. He is always sure of his pay, of three substantial meals each day, of clean, healthful surroundings. His health is the primary concern of a skillful staff of physicians. In time of injury or illness he receives without cost the best medical and hospital attendance, and after thirty years of service he may retire on three-quarters of his pay, assured of a never-failing income so long as he lives.

Excepting the cost of his clothing, after the first outfit, which is furnished gratis, and a deduction of 20 cents a month for the hospital fund, a man-of-war's man's pay is all "net." He has no board to pay, no rent and no doctor's bills. Considering his steady work and perquisites, it is much better off than the average mechanic or clerk contending with losses through ill health, strikes, weather and business depressions.

A recruit can readily see the position and salary he may earn by earnest and intelligent effort. From the time he enters the training station he receives useful instruction and encouragement. His advance can be measured only by his diligence, behavior and ability, for opportunities extend over a field offered by no other service. Seamen are required to steer, man the boats, the guns and turrets and do the general work of the ship outside of the engine room; clerks, stenographers and bookkeepers to handle records and accounts; nurses, stewards and cooks; electricians, machinists, plumbers, painters, ship fitters, coppersmiths and blacksmiths and boiler-makers to keep ships in repair; radio operators, firemen, torpedo men to handle torpedoes.

The special service branches embrace yeomen (clerks), nurses, musicians and cooks. In the seaman branch we find the men most intimately identified with the navigation and fighting of the ship, as seamen, gunners, torpedo men, quartermasters and boatswains, and in the artificer branch the tradesmen of the navy, machinists, electricians, carpenters, coppersmiths, painters, etc. The following table gives their various ratings of each branch and the respective rates of pay:

SEAMAN BRANCH.	
Apprentice seamen.....	\$17.50
Ordinary seamen.....	20.00

Attractive as these inducements are, they by no means limit the advantages offered by the navy. Uncle Sam knows the value of experienced men, so when an honorably discharged man who is a United States citizen enlists the second time his pay is increased \$5.00 a month and \$3.00 a month more for each subsequent re-enlistment. In addition, he will get four months' pay and \$1.00 a month if he re-enlists within four months. Second enlistment men have an opportunity to attend the professional schools maintained by the navy, courses at which facilitate promotion and increased pay. Men of exceptional skill in handling the guns receive extra compensation of from \$2 to \$10 a month, depending on the size of the gun. Divers and men in the submarine service are rewarded for the risks they assume with additional pay, and those detailed for other duties, such as ship's tailors, certain coxswains and mail clerks, have an income additional to the pay of their ratings.

Any disabled person who has served as an enlisted man in the navy for ten years and has not been discharged for misconduct may apply for aid from the surplus income of the naval pension fund, which may be granted upon the recommendation of a board of not less than three naval officers in "suitable amount," to be approved by the secretary of the navy.

After twenty years of service any enlisted man disabled from sea service by reason of age or infirmity and who has not been discharged for misconduct shall, if he so elects, be entitled to a pension equal to half pay and be admitted into the Naval home, Philadelphia, Pa.

Any enlisted person in the navy who has served thirty years may be placed on the retired list if he so desires. All service, whether in the navy, marine corps or army, is credited. On retirement he is allowed three-quarters of the pay he was receiving when retired and in addition thereto allowances amounting to \$15.75 a month for rations, quarters, fuel and light.

Promotion to the highest ranks is open to the enlisted man. As an American citizen he may be nominated for admission to the United States Naval Academy at Annapolis by his congressman or senators, who have certain nominations in their giving. Last year at the earnest solicitation of Secretary Daniels' congress authorized the secretary of the navy to appoint fifteen enlisted men to Annapolis each year. They must win the nomination in a competitive examination and must have completed one year's service with honor and be under twenty years of age. Disbanded men with good records who are under twenty-six years of age may also participate in examinations for the pay corps, appointments to which are now limited to them, and upon qualifying they will be commissioned assistant paymasters.

Yet another door is open to those who have good records and ability, but who have been unable to advance by the channels mentioned. They may go up through the ranks. Men who have served continuously and reach the grade of chief or first class petty officer are eligible for appointment as warrant officers, with pay of from \$1,500 to \$2,400 a year. Warrant officers are boatswains, gunners, carpenters, machinists and pharmacists. To be eligible for this appointment seven years' service at sea, with average efficiency of not less than 85 per cent, is necessary, and candidates must be under thirty-five. Warrant officers after serving four years in this grade are promoted to chief warrant officers, and at the age of sixty-two they are retired on three-quarters pay.

Every year twelve warrant officers—boatswains, gunners and machinists—who are under thirty-five and have completed four years' service in the

CHARLES LEON TAYLOR WALTER CHANDLER, JR. WALTER S. GILSON
President General Manager Vice PresidentBEACHEY, THE
NOTED FLYER,
MEETS DEATHMONOPLANE FELL INTO SAN
FRANCISCO BAY AND AVIA-
TOR WAS DROWNED.Steered Out Over Water So As to
Avoid Falling on Exposition
Crowd.

San Francisco March 17.—Lin-
coln Beachey, the aviator, was killed
while making an exhibition flight at
the Panama-Pacific Exposition Sun-
day. At an altitude of about 3000
feet, Beachey began a sharp descent.
The wings of his aeroplane collapsed
and the machine plunged into San
Francisco Bay. The body was recov-
ered.

Beachey was completing his sec-
ond flight of the day when the ac-
cident occurred, in full view of thou-
sands of spectators. Having pre-
viously electrified the crowd with a
series of aerial somersaults, the air-
man sought to add an additional
thrill by making one of the sensa-
tional perpendicular drops which
usually featured his flights.

On the first flight all went well,
and the aviator's familiar tricks were
indulged in with the exception of the
perpendicular drop. This Beachey
had saved for the climax. It proved
too much of a strain for the frame
of the monoplane.

The machine was at an altitude of
about 3000 feet when Beachey shut

through the air upside down. Beach-
ey was in retirement when these
feats were heralded and was drawn
back into the game by his desire to
exceed the remarkable flying of the
Frenchmen.

Beachey was born in San Fran-
cisco in September, 1887, and made his
first flight in 1905 at Oakland, Cal.,
piloting a dirigible balloon. In 1906
he circled the Capitol at Washington.
He soared over New York City in
July, 1907. His motor failed and
the wind whirled the dirigible across
the river, wrecking it.

Early in 1913 Beachey announced
that he had made his last flight, as-
serting that he felt partly responsi-
ble for the deaths of nine aviators
who had tried to emulate him.
When the deeds of the daring
Frenchmen were chronicled he re-
turned to flying. In October, 1913,
at Hammondsport, N. Y., his ma-
chine swept several spectators from a
roof, killing one.

Beachey boasted that 20,000,000
persons had seen him fly.
Structural defects in his new mono-
plane, not inability to control the
craft, are believed by local aviators
to have been responsible for the death
of Beachey. The wings of the aero-
plane had crumpled under the pres-
sure of "banking" after an almost per-
pendicular glide of two thousand feet.

Yesterday was the first time
Beachey had made a public flight in
the new monoplane. His previous
flights here having been in a biplane
over which he had perfect control. The
aviator was extremely brave as he
took his seat in the machine and ac-
cording to his mechanics, he
seemed to have a premonition of
trouble, but was determined to please
the crowd of 50,000 people.

Beachey's aged mother, Mrs. Amy
Beachey, who lives in this city, col-
lapsed when told of her son's death
and is under the care of physicians.
Beachey made the statement several
days ago that if he should find him-
self failing, he would head his ma-
chine out to sea, so as not to fall on
the exposition crowd. He kept his
word, his fall into the bay being about
fifty yards from shore.

The body was found by a sailor on
the battleship Oregon, who made two
descents in a diving suit.

Miss Ethel Sagemaker, Beachey's
fiancee, was not told of his death un-
til today. She believed him to have
been only injured.

END INDIGESTION
OR STOMACH PAIN
IN FIVE MINUTES

Time it! In five minutes all
stomach distress will go. No indi-
gestion, heartburn, sourness or
belching of gas, acid, or eruptions
of undigested food, no dizziness,
bloating, foul breath or headache.

Pape's Diapepsin is noted for its
speed in regulating upset stomachs.
It is the surest, quickest and most
certain indigestion remedy in the
whole world, and besides it is harm-
less.

Millions of men and women now
eat their favorite foods without
fear—they know Pape's Diapepsin
will save them from any stomach
misery.

Please, for your sake, get a large
fifty-cent case of Pape's Diapepsin
from any drug store and put your
stomach right. Don't keep on being
miserable—life is too short—you
are not here long, so make your
stay agreeable. Eat what you like
and digest it; enjoy it, without dread
of rebellion in the stomach.

Pape's Diapepsin belongs in your
home anyway. Should one of the
family eat something which don't
agree with them, or in case of an
attack of indigestion, dyspepsia, gas-
tritis or stomach derangement at
daytime or during the night, it is
handy to give the quickest, surest
relief known.

Monday and Tuesday Mary Pickford will appear in "Mistress Nell," a wonderful picture in five parts. Wednesday and Thursday Beatrix Michelen, a Brady star, comes in "Mrs. Wiggs of the Cabbage Patch." Also live act drama, "Friday at Saturday," the fascinating little actress Marguerite Clark will be seen in "The Crucible." Sunday William Farnum comes in "Sampson," but not the biblical play.

DENISON CHAMPS
CLOSE SEASON
WITH VICTORY

Granville, O., March 15. — The Ohio conference champs defeated Muskingum here last night in a rattling good game, 47 to 25. The Denison team was never headed after they started, although Muskingum tied the score in the beginning of the second half at eighteen all. Thiele, Reese and Roubush played stellar games for Denison. Thiele scored ten field goals. Roubush scored seven. Atkinson and Sinclair were Muskingum's best players. Line-up and summary:

Denison 47 Muskingum 25
 Biggs, rf Arnold rf
 Roubush, lf Montgomery, lf
 Thiele, c Aiken, c
 Jones, (Capt.) Sinclair, (Capt.)
 Reese, lg Atkinson, rg
 Substitutions—Denison, Ladd for Reese. Field goals—Denison: Thiele 10, Roubush 7. Denison 2, Reese 3. Muskingum: Atkinson 2, Sinclair 1, Arnold 1, Montgomery 1, Aiken 1. Foul goals—Denison: Jones 3 out of 4; Muskingum: Atkinson 7 out of 11. Referee—Riley, of Ohio State. Time of halves—20 minutes.

THINKS PROPOSED
LEAGUE IS FARM
FOR THE FEDERALS

Columbus and Springfield papers believe that the proposed new league in which Newark has been placed, is a nursery for the Federal league, according to statements made in recent issues.

Sunday's Columbus dispatch says: "There has been some quiet speculation since Wednesday as to the new league which is being organized in Northern Ohio. The announcement of a circuit to include Lima, Newark and four other cities came unheralded. The suspicion exists here, since Eastern men are promoting the league, that this circuit is to be the much talked of minor farm for the Federal league. It is expected that the teams will be operated as nurseries for each of the eight Federal clubs and that the talent is to be filled in with semipro players and others out of employment (due to cuts in rosters) that may care to sign."

Referring to the dispatch which appeared in several Ohio papers from Lima last week, the Springfield News says: "It is simply a revival of the announcement made several months ago in the Daily News of an attempt on the part of the Federal league to start a minor circuit in Ohio. As long as the local park is in the hands of a receiver there is not much chance of Springfield being represented." There have been no new developments since the departure of Mr. Page from Newark last Wednesday. The park here has been leased and Newark fans are awaiting future announcements from Mr. Page with considerable interest.

MINE DISASTERS
IN PENNSYLVANIA,
COST 1,000 LIVES

(ASSOCIATED PRESS TELEGRAM)
 Harrisburg, Pa., March 15.—More than 1,000 lives were lost in and about the mines of Pennsylvania in 1914, according to statistics made public today by the state department of mines. There were 609 men and boys killed in the anthracite mines, a reduction of 23 as compared with 1914 and 413 lost their lives in the bituminous regions, a decrease of 198 compared with the previous year.

The total production of coal in the state was 27,251,825 tons. The anthracite output amounted to 91,267,205 tons, a decrease of 256,659 compared to 1913 and the bituminous production was 145,884,520 tons, a decrease of 27,681,129 tons compared with the previous year. The number of persons employed in and about the mines last year was 576,831.

FEW FOLKS HAVE
GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Agents, Hall's Drug Store.

PUT STOMACH IN

Says Indigestion Results From an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys, and thus promote a free flow of pure digestive juices.

OHIO STATE WHIPS
OBERLIN IN LAST
GAME OF SEASON

Oberlin, March 15.—Ohio State and Oberlin clashed here Saturday night in the season's closer and in as pretty a game as seen on the home floor this winter. Ohio State won 21 to 17. With Jack Honus Goal and Captain Cherry taking the leading roles in some splendid team work, the Ohio quartered first. Then both teams opened the throttle and kept it up until the close of the first period when the score stood Ohio State 11, Oberlin, 10.

URBANA VOTING
UNDER BEAL LAW;
CITY IS NOW DRY

(ASSOCIATED PRESS TELEGRAM)
 Urbana, Ohio, March 15.—With the ringing of church bells and in a drizzle of rain, Urbana voters crowded around the polls early today in the Beal law election to determine whether this city shall return to the open saloon under the home air amendment to the constitution. The city has been dry for several years. "Wet" leaders were exceedingly active, but the dries expressed confidence that the vote today would result in the town remaining in the dry column.

MT. VERNON LOST
TO DELAWARE IN
TOURNEY FINALS

Delaware March 15.—In one of the fastest exhibitions of high school basketball ever witnessed in Edwards gymnasium, the Delaware high school quarter won the championship of Ohio here Saturday by defeating the Mt. Vernon five 32 to 17. The Delaware team went through the entire tournament without a defeat.

Before the game the Mt. Vernon supporters were offering odds of 4 to 3 on their team, and it was believed by many basketball experts that the small local team could not successfully combat the perfect team play of their larger opponents. The game started like a whirlwind and at no stage of the contest did the play drag. At the end of the first half the score stood 14 to 12 in favor of the winners and it looked to be either team's game.

It was in the last period that the Delaware boys showed their mettle and proved their indisputable claim to the championship. Perry playing center for Delaware, surprised even his most ardent supporters and played the Mt. Vernon star, Bond, to a standstill, the Delaware center scoring six baskets while holding his opponent to four. Little "Bus" Reid, the whirlwind forward of winners, was the other star for Delaware, while the playing of Clayton, the Mt. Vernon captain, was a great exhibition of good floorwork.

The championship game Saturday afternoon was a culmination of the most successful, both in the best of ball played and the enthusiasm shown, high school tournament ever held by the Ohio Wesleyan authorities.

Over two hundred rooters from Mt. Vernon followed their team to Delaware.

In the morning games, Delaware eliminated Ashville by a score of 42 to 8 and Mt. Vernon defeated Bellevue by a score of 29 to 25.

DR. GEORGE DORSEY'S
WONDERFUL PICTURES
BOOKED IN COLUMBUS

Many Newark and Granville people will be interested in the Dr. George A. Dorsey pictures, photographic wonders which will be shown at the Hartman theatre, Columbus, beginning with Friday, March 19 and continuing until Thursday, March 25.

The exhibition is of moving pictures of scenes in China and Japan and will be especially interesting because they were taken by Dr. George Amos Dorsey, who was born at Hebron and reared at Granville, and who now is curator of the Field Museum of Natural History of Chicago and has an international reputation as an anthropologist.

Dr. Dorsey has been engaged in scientific research work in the Orient for the museum for a year or more and will not complete his mission there for several years. He began this work nearly a quarter of a century ago and since then has conducted investigations in anthropology in nearly every country in the world. He has been curator and head of the Field Museum since 1898.

Dr. Dorsey was graduated from Denison university in 1888 and from Harvard in 1890. He received degrees of LL.D. and A.B. from the former university and the degree of Ph.D. from the latter.

His research work has embraced visitations in Europe, Egypt, India, Ceylon, Java, Australia, New Guinea, Philippine Islands, South America, China, Japan and other countries.

All goods laden at such port must be discharged in a British or allied port. Goods so discharged in a British port shall be placed in the custody of the marshal of the prize court and if not requisitioned for the use of his majesty, shall be detained or sold under the direction of the prize court. The proceeds of the goods so sold shall be paid into court and dealt with in such a manner as the court may in the circumstances deem to be just, provided that no proceeds of the sale of such goods shall be paid out of the court until the conclusion of peace, except on the application of a proper officer of the crown, unless it be shown that the goods had become neutral property before the issue of this order and, provided also, that nothing herein shall prevent the release of neutral property laden at such enemy port on the application of the proper officer of the crown.

"Third—Every merchant vessel which sailed from her port of departure after March 1, 1915, on her way to a port other than a German port, carrying goods within any enemy destination or which are enemy property may be required to discharge such goods in a British or allied port. Any goods so discharged in a British port shall be placed in the custody of the marshal of the prize court, and unless they are contraband of war, shall, if not requisitioned for the use of his majesty, be restored by an order of the court upon such terms as the court may in the circumstances deem to be justified to the person entitled thereto; provided, that this article shall not

apply in any case falling within articles 2 or 4 of this order.

"Fourth—Every merchant vessel which sailed from a port other than a German port after March 1, 1915, and having on board goods which are of enemy origin or are enemy property, may be required to discharge such goods in a British or allied port. Goods so discharged in a British port shall be placed in the custody of the marshal of the prize court and, if not requisitioned for the use of his majesty, shall be detained or sold under the direction of the prize court. CRASH

OF AMBULANCE AND FORD AUTO CAUSE FRACTURE OF YOUNG MAN'S SKULL.

Ellis Beasson Badly Hurt, But May Recover—Ambulance Damaged and Ford Wrecked.

Criss Bros.' ambulance, driven by Raymond Coyle, and a Ford automobile, driven by Ellis Beasson, collided at Sixteenth and Granville streets, Saturday afternoon about 3:30 o'clock, and the latter received injuries which are quite serious, but not necessarily fatal. The young man's physicians stating that he will undoubtedly recover. With Driver Coyle at the time was Harry Nutter, and they were returning with the ambulance from Alexandria, where they had taken a patient from the City hospital.

With young Beasson, who is about 24 years of age, were his father and Joseph Cornell, the latter two gentlemen occupying the rear seat. The story of Driver Coyle and substantiated by his companion, Nutter, is to the effect that they were coming east on the Granville road and that before they reached Sixteenth street they saw the auto and it was on their side of the road. They naturally supposed, they said, that it had taken that side to make a turn up Sixteenth street. Coyle states that he blew his horn and just as the Ford reached Sixteenth street it swerved as if it would turn that way and then came on towards them. He realized that he would have a collision and turned his machine, so as to try and hit it slanting instead of head-on.

The cars met and the Ford was thrown over on its side. The occupants were thrown out and young Beasson, who was badly hurt, was rushed to the Sanitarium in the automobile of August Hess, who happened on the scene. His injuries were dressed and Monday he was reported as resting quite well under the circumstances. His injuries consist of a fracture of the frontal bone, two gashes in the back of his head, and a number of body bruises. None of the others was hurt except that Mr. Cornell had his right hand badly scratched.

An effort was made to get in touch with the elder Mr. Beasson, but he had just left the Sanitarium before the reporter reached there, and the injured man was in such a condition that his physician gave orders for him to have absolute quiet.

Mr. Cornell was reached by long distance phone at his home in Alexandria. To an inquiry as to what caused the accident he said:

"We were on our way home going west on Granville and had stopped to talk with a Mr. Jones, who had several Jersey cows. We had just started and our driver was going very slow up the center of the street when we saw the ambulance coming towards us. It was moving at a very fast pace, and all I can say is that our driver did not get over to the right quick enough to avoid the contact."

The Ford machine is badly wrecked, and the front axle of the ambulance was broken, as were also the lamps, while the radiator was also damaged. It will be repaired and in service again in a few days.

BOOK A NUMBER OF ATTRACTIONS FOR AUDITORIUM

Mr. Reed Rosser, who has been the resident-manager of the Auditorium theatre in this city for Mr. Gus Schafer, the lessee, has been transferred to the National theatre in Steubenville. He will still exercise management over the local playhouse, coming to Newark whenever there are any large attractions to assist Treasurer W. P. Bailey, who will have charge during Mr. Rosser's absence. Mr. Bailey, while a very young man, understands all details of the theatrical line, having been brought up in the business, his uncle having been the owner of the Barnum & Bailey circus. He expects to book a number of standard attractions before the season is over.

For the last three days of this week a musical tabloid has been booked at the Auditorium featuring Adams and Vert. There is said to be a lot of pretty girls in the cast, singers and dancers. "Uncle Tom's Cabin" is booked for the 23d inst., and on the 26th comes Billy Watson's big burlesque company with a carload of dainty girls that will help pack the house on that evening. Mr. Bailey will make further announcements in the near future.

Newark Woman Cured of Kidney Trouble

Tell Fellow Townsfolk How Wonderful Result Was Accomplished.

Mrs. J. B. Layman, of 437 West Church street, Newark, O., says: "I suffered terribly from a severe case of kidney trouble. I was told that nothing would relieve me but an operation. My urine was scalding and I suffered terribly with gravel. My back also gave me a great deal of pain and I was in a very bad condition. For this trouble I started taking Lloyd's Kidney and Rheumatism Tablets, the new scientific prescription, and from the first box I began to feel better. They relieved me from a very distressing disease and I am only too glad to recommend them to anyone suffering with this trouble."

Kidney Troubles May be Sapping Your Life Away. Newark People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, weak kidneys may be the cause. The slightest symptom of kidney trouble is too serious to neglect. Doan's Kidney Pills have earned their fame for their effectiveness in strengthening the kidneys and keeping them well. Here is Newark testimony to prove their worth.

Mrs. C. L. Starr, 89 Hancock street, Newark, says: "For years I was run down from kidney and bladder trouble. I was weak and hard backaches and headaches made me feel miserable. I used Doan's Kidney Pills and they did me a lot of good. They gave me strength and energy and made it possible for me to rest well. Every spring and fall I take a box of Doan's Kidney Pills, as a tonic and strengthener and they keep my kidneys in good shape."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Starr had. Foster-Milburn Co., Props., Buffalo, N. Y.

ARGUMENT THAT THAW BE SENT TO NEW HAMPSHIRE

(ASSOCIATED PRESS TELEGRAM) New York, March 15.—Arguments on the motion of Harry K. Thaw's counsel that the state be directed to send him back to New Hampshire whence he was brought to face trial for conspiracy, were to be heard in the supreme court this afternoon.

It was reported that Thaw has demanded that his counsel seek to establish his sanity here and prevent his return to Matteawan asylum instead of trying to obtain his removal to New Hampshire. He hopes this time to obtain a trial by jury. Counsel for the state, in anticipation that Thaw's motion to be returned to New Hampshire would be denied were preparing today for the hearing which must follow on application of counsel for a writ of habeas corpus.

Deputy Attorney General Cook said if the issue of Thaw's mental condition came to trial, he expected to include Evelyn Nesbit Thaw among the state's witnesses.

CLARK IS INDICTED. Louis Owings, Harry "Butch" Lutz of this city and Tom Clark, of Cambridge, were indicted by the special Guernsey county grand jury Saturday in connection with the robbery at the Mills home near New Concord on Feb. 23. Clark was arrested in Newark two weeks ago.

Granville

(Special to The Advocate.)

Granville, March 15.—One of the most delightful social functions of the year was the reception Saturday afternoon from four to half past five o'clock, given by Prof. and Mrs. Theodore Johnson at their home in West Elm street, complimenting the delegates to Phi Gamma Delta Section chief. The active chapter of Phi Gamma Delta, their thirty guests from Ohio State, Ohio Wesleyan and Wittenberg, the resident alumni with their wives, and about a dozen of the Sheperdson College girls, made up the list of callers. In the receiving line were: Clarence Fox, Prof. and Mrs. Johnson, President and Mrs. C. W. Chamberlain. Greetings and introductions over an informal good time was enjoyed by all. College and fraternity songs were given by request, and the delicious refreshments passed by the college girls, were in classic parlance "nectar and ambrosia," to the seventy guests.

Granville society was entertained Saturday afternoon and evening by several social events of interest, in addition to the basketball contest between Denison and Muskingum in Cleveland Hall at 8:00 o'clock, resulting in a victory for the home team, by a score of 47 to 25.

Mrs. C. M. Roberts entertained in a charming manner Saturday afternoon at her home in Park Drive, honoring Klappa Phi sorority. She was assisted by her daughter, Miss Mary Roberts of Columbus. An interesting game, entitled a "Musical Love Story," furnished enjoyable diversion, and there was an informal musical program besides. An appetizing luncheon was served. Only the girls of the active chapter and the resident alumnae were present, numbering about thirty in all.

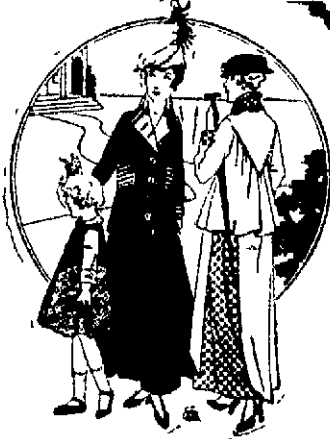

Miss Anna Preckamp entertained her friends at tea in Stone Hall, Saturday afternoon.

Miss Judson, dean of Sheperdson college spent last week in New York. Miss Margaret Knight of Columbus, a Vassar classmate of Miss Judson, meeting her classes during her absence.

An illustrated lecture on "Home Mission Work in the West" was given in the Baptist church auditorium last evening (Sunday) by Rev. Bruce Kinney, D. D., of Topeka, Kansas, which was enjoyed by a large congregation. Dr. Kinney is now general superintendent for the Midland Division, having directed the work of the Home Mission society in ten states west of the Mississippi. His intimate and extended experience in mission work among the Indians and Mormons gives weight to his utterances.

by Sheriff Swank last Saturday to Mr. Edward Richards for \$7,000. Miss Mary McKibben, who has spent the past month in New York City as guest of her brother-in-law and sister, Mr. and Mrs. O. M. Arnold, returned to her home in Elm street this morning. Three new modern houses will be erected this summer on the "Kylville" site on West Broadway, two of the number by McLees and Megaw, the other by Mr. Clyde McLees. The Denison Glee club returned last night from a most successful concert trip to Middletown and Dayton. In both cities the boys found highly responsive and appreciative audiences, and most hospitable entertainment. The place on the program of Mr. Gerald Athey, baritone soloist, was filled by Mr. L. B. Cox. Mr. Athey having been laid up with an attack of grip and unable to travel. The home concert on the thirty-first of March, will fill the Opera House to overflowing. Mrs. Sarah Wright Shuett, who has been ill during the past fortnight at her home on Mt. Parnassus, is still confined to her bed, with her daughter, Mrs. C. B. White, in almost constant attendance. Granville and Newark people, in fact all Licking county patrons of the "movies," should be interested in a high class exhibition of moving picture scenes of China and Japan which will be shown at the Hartman beginning next Friday and continuing for a week, because they were taken by Dr. George Amos Dorsey, a Licking county boy who has achieved international reputation as an anthropologist, being curator of Fields Museum of Natural History of Chicago.
